Software Bill of Materials (SBOM)

Ref: 2.7
Product: iConnect Plus
Organisation: Cache Digitech
Classification: Internal — Confidential
Version: 2.0
Date: 2026-11-03
Deployment model: On-premises (Cache Digitech premises) · VPN for remote access
Audience: Security operations, platform engineering, auditors

---

1. Purpose

Identify **third-party and runtime components** deployed with iConnect Plus on-premises. This document is a **baseline inventory**; machine-readable SBOM exports are **Template / Pending sign-off**.

2. Runtime platform (on-premises host)

Component	Version (pinned in repo)	License	Function
Linux host OS	**Template / Pending sign-off**	—	Hypervisor/physical
Docker Engine	**Template / Pending sign-off**	Apache 2.0	Container runtime
Docker Compose	**Template / Pending sign-off**	Apache 2.0	Orchestration

3. Container images (from Compose)

Service	Image	Version tag
PostgreSQL	`postgres`	`16-alpine`
Redis	`redis`	`7-alpine`
RabbitMQ	`rabbitmq`	`3-management-alpine`
Nginx	`nginx`	`1.27-alpine`
ClamAV	`clamav/clamav`	`1.4`
OpenSearch	`opensearchproject/opensearch`	`2`
MinIO	`enterprise-erp-minio:local`	Built from `docker/minio`
API / Celery	`enterprise-erp-api:local`	Built from `apps/api/Dockerfile`
Web	`enterprise-erp-web:local`	Built from `apps/web/Dockerfile`
ESS	`enterprise-erp-employee:local`	Built from `apps/employee-app/Dockerfile`

4. Application stack (logical)

Layer	Technology	Version policy
API language	Python	3.13+
API framework	FastAPI	Pinned in API requirements
ORM	SQLAlchemy	2.0

Migrations	Alembic	Pinned
Validation	Pydantic	v2
Jobs	Celery	Pinned
Web	Next.js	16+
UI	Tailwind, ShadCN	Per `apps/web/package.json`

Detailed Python packages: `apps/api/requirements*.txt` (or project equivalent).
Detailed npm packages: `apps/web/package.json`, `apps/employee-app/package.json`.

---

5. SBOM generation procedure (recommended)

Step	Command / tool	Output
Python SBOM	`pip freeze` or CycloneDX plugin on API build	**Template / Pending sign-off**
Node SBOM	`npm sbom` / CycloneDX for web + ESS	**Template / Pending sign-off**
Container SBOM	`syft` / `trivy` on built images	**Template / Pending sign-off**
Storage	Internal artifact share	**Template / Pending sign-off**

---

6. Vulnerability management

Activity	Frequency	Owner
Image rebuild on base OS patch	Monthly — **Template / Pending sign-off**	Platform + IT
Dependency PR (Dependabot/Renovate)	Continuous	Platform
Critical CVE response	Per §2.6 SLA	Platform

---
