User Access Review Records

Ref: 3.3
Product: iConnect Plus
Organisation: Cache Digitech
Classification: Internal — Confidential
Version: 2.0
Date: 2026-11-03
Deployment model: On-premises (Cache Digitech premises) · VPN for remote access
Audience: Tenant admins, HR, IT, auditors, security officers

---

1. Purpose

Define the **periodic access review process** for iConnect Plus accounts, roles, and related **VPN** access on Cache Digitech infrastructure. This register uses **templates** until official reviews are completed and signed.

---

2. Scope of review

Access type	System	Review owner
Application login	iConnect Plus `sec_user`	Tenant admin + HR
Application roles / permissions	RBAC assignments	Tenant admin
Privileged roles	`SUPER_ADMIN`, `TENANT_ADMIN`, module admins	Platform + security
VPN remote access	IT VPN directory	IT Infrastructure
GitHub source access	GitHub org	Engineering manager
Server / Docker admin	SSH, host groups	IT Infrastructure

---

3. Review cadence (template policy)

Review	Frequency	Next due
Standard user roles	Quarterly	**Template / Pending sign-off**
Privileged / admin roles	Monthly	**Template / Pending sign-off**
VPN users	Quarterly	**Template / Pending sign-off**
Terminated employees	Within 24h of exit	HR trigger

---

4. Review procedure

Step	Action	Evidence
1	Export user list with roles per tenant	Admin UI / SQL read-only
2	Managers certify direct reports	Email or ITSM ticket
3	Remove unjustified roles	Change record §2.4
4	Disable inactive accounts (>90d)	**Template / Pending sign-off** policy
5	Cross-check VPN list vs active employees	IT export
6	Document completion in §5 register	Sign-off

5. Access review register

Review ID	Period	Environment	Reviewer	Completed date	Findings summary	Sign-off
UAR-2026-Q4	Q4 2026	Production	—	—	*Not yet performed*	**Template / Pending sign-off**

> ***Do not*** *invent completed dates or approver signatures. Replace placeholders when reviews are executed.*

6. User certification template

Field	Value
Employee name	
User id / email	
Department	
Manager	
Roles assigned	
Still required?	Yes / No
VPN required?	Yes / No
Certification	Approved / Revoke
Date	

7. Remediation log (from reviews)

Review ID	User / account	Issue	Action taken	Date	Verified by
—	—	—	—	—	—

8. Integration with offboarding

Trigger	Application action	VPN action	GitHub action
HR termination	Disable user, revoke roles	Remove VPN	Remove org access
Role change	Update RBAC	—	—
Long leave	Suspend account — **Template / Pending sign-off**	Optional VPN suspend	—
