Personal Data Processing Record (DPDP)

Ref: 4.5
Product: iConnect Plus
Organisation: Cache Digitech
Classification: Internal — Confidential
Version: 2.0
Date: 2026-11-03
Deployment model: On-premises (Cache Digitech premises) · VPN for remote access
Audience: Data Protection Officer, legal, security assessors, tenant administrators

1. Purpose

Record **personal data processing** activities for iConnect Plus under the **Digital Personal Data Protection Act, 2023 (India)** and related internal policies. This deployment processes data **on-premises in India** at Cache Digitech premises; remote access is via **corporate VPN**.

2. Data fiduciary & contact

Role	Entity	Contact
Data fiduciary (operator)	Cache Digitech Pvt. Ltd. (internal deployment)	**Template / Pending sign-off**
DPO / grievance officer	**Template / Pending sign-off**	**Template / Pending sign-off**
Technical PoC	Platform engineering	**Template / Pending sign-off**

3. Processing activity summary

Activity ID	Name	Description
PA-01	Employee & HR operations	HR master, attendance, payroll-related PII
PA-02	Finance & vendor/customer	Business partner contact and tax/bank data
PA-03	Authentication	User accounts, optional MFA, session metadata
PA-04	Document management	Files that may contain personal data
PA-05	Audit & security	Access logs tied to user identifiers
PA-06	Notifications	Email/SMS/push to individuals

4. Categories of data principals

Category	Examples
Employees	Staff using ESS and HR modules
Administrators	Tenant admins, IT operators
Business contacts	Customers, vendors in master data

5. Categories of personal data

Category	Examples	Sensitivity
Identity	Name, email, phone, employee ID	Confidential

Government IDs	PAN, Aadhaar (where collected)	Restricted — encrypted
Financial	Bank account, salary	Restricted — encrypted
Online identifiers	IP in logs, session IDs	Confidential / Internal
Professional	Designation, department	Internal

6. Purposes & lawful basis (internal deployment)

Purpose	Lawful basis (indicative)	Notes
Employment contract performance	Consent / legitimate use per HR policy	Tenant-specific
Payroll & statutory compliance	Legal obligation	Retention per 4.3
ERP business operations	Legitimate use / contract with data principal	B2B tenant context
Security & fraud prevention	Legitimate use	Lockout, audit logs
System notifications	Consent or legitimate use	Opt-out where applicable

Legal review: Template / Pending sign-off per tenant deployment.

7. Processors & subprocessors

Processor	Role	Data location	DPA / agreement
Cache Digitech (internal IT)	Hosting, backup, VPN, monitoring	India — premises	Internal policy
Cache Digitech (platform team)	Application ops, support	India — premises	Internal policy
VPN vendor (if applicable)	Remote access tunnel	**Template / Pending sign-off**	**Template / Pending sign-off**
Email provider (optional)	SMTP / Brevo delivery	May leave premises	**Template / Pending sign-off**
Push (optional FCM)	Mobile notifications	Google infrastructure if enabled	**Template / Pending sign-off**
Microsoft Entra (optional)	SSO	Microsoft cloud if enabled	**Template / Pending sign-off**

Primary database and object storage processors: internal only — PostgreSQL and MinIO on premises.

8. Cross-border transfer

Default configuration: **no intentional cross-border transfer** of primary OLTP/MinIO data. Optional integrations (email, Entra, FCM) may transfer metadata — disable or contract if not permitted.

9. Retention & deletion

See **4.3 Data Retention & Deletion Schedule**. Erasure requests: section 6 of 4.3.

10. Security measures (summary)

Measure	Reference
Access control	RBAC — 3.1
Encryption	Fernet, bcrypt, TLS — 4.2
Network	LAN + VPN — 1.3
Logging	5.1

Incident response	CERT-In 6h — 5.4

11. Data principal rights (handling)

Right	Process
Access / correction	Tenant admin or HR module workflows
Erasure	Ticket → DPO → 4.3 erasure procedure
Grievance	Contact in 6.3 Privacy Notice

12. Related documents

Ref	Document
