ICONNECT PLUS / CACHE DIGITECH

Asset Management User Manual

IT and Non-IT assets from intake and QC through registration, assignment, operations, and disposal

IT domain | Non-IT domain | Full module reference

Product	iConnect Plus ERP
Module	Asset Management
Document	User Manual v1.0
Audience	Asset admins and assigned members
Demo asset	CT-HP-Aman (AST-2026-000003)
Date	17 October 2026

Part A follows the intake-to-disposal path. Part B lists primary sidebar panes.

Table of contents

1. Who this manual is for and access
2. End-to-end asset lifecycle overview
3. Part A - Process walkthrough (steps 01-15)
4. Part B - Sidebar reference (19 panes)
5. Roles and responsibilities
6. Typical checkpoints
7. Demo assets and rebuild

Who this manual is for and access

This manual is for **Asset Management admins** and **assigned domain members** who receive, register, issue, transfer, maintain, and dispose of IT and Non-IT assets.

> Sign in with **Microsoft Entra SSO**. Passwords are not stored in iConnect Plus for Entra users. If Asset Management is missing from your module hub, ask a Superadmin to grant domain membership on Users.

1. Open iConnect Plus and complete Entra sign-in.
2. Open Asset Management from the ERP module hub.
3. Choose **IT Assets** or **Non-IT Assets** under Domains.
4. Configure Asset Types, Locations, and Departments before large-scale intake.

> Business rule: assets can enter via Incoming - QC - Registration or direct Add Asset. Assignment and DC Challan track custody after the asset is on the register.

End-to-end asset lifecycle overview

Part A walks intake-to-disposal screens. Configuration masters should exist before you create volume inventory.

IT asset lifecycle (demo walkthrough)

Demo: CT-HP-Aman (AST-2026-000003) - HP HP ELITEBOOK 840 G7
Assigned to Aman Raj (CT5319) at New Delhi - CRC2 - assignment AASN-2026-000002
Components and Documents extend the register; Non-IT is a separate domain

Part A - Process walkthrough

Follow these steps in order. Demo asset used in screenshots:

- **Asset:** CT-HP-Aman
- **Tag:** `AST-2026-000003`
- **Make / Model:** HP · HP ELITEBOOK 840 G7
- **Assignee:** Aman Raj (`CT5319`)
- **Location:** New Delhi - CRC2
- **Assignment:** `AASN-2026-000002`

Step 01 - All Assets inventory

Open **All Assets** for the IT register. Search by tag, serial, make, model, or assignee. Filter by operational status (Ready, Assigned, Maintenance, Disposed).

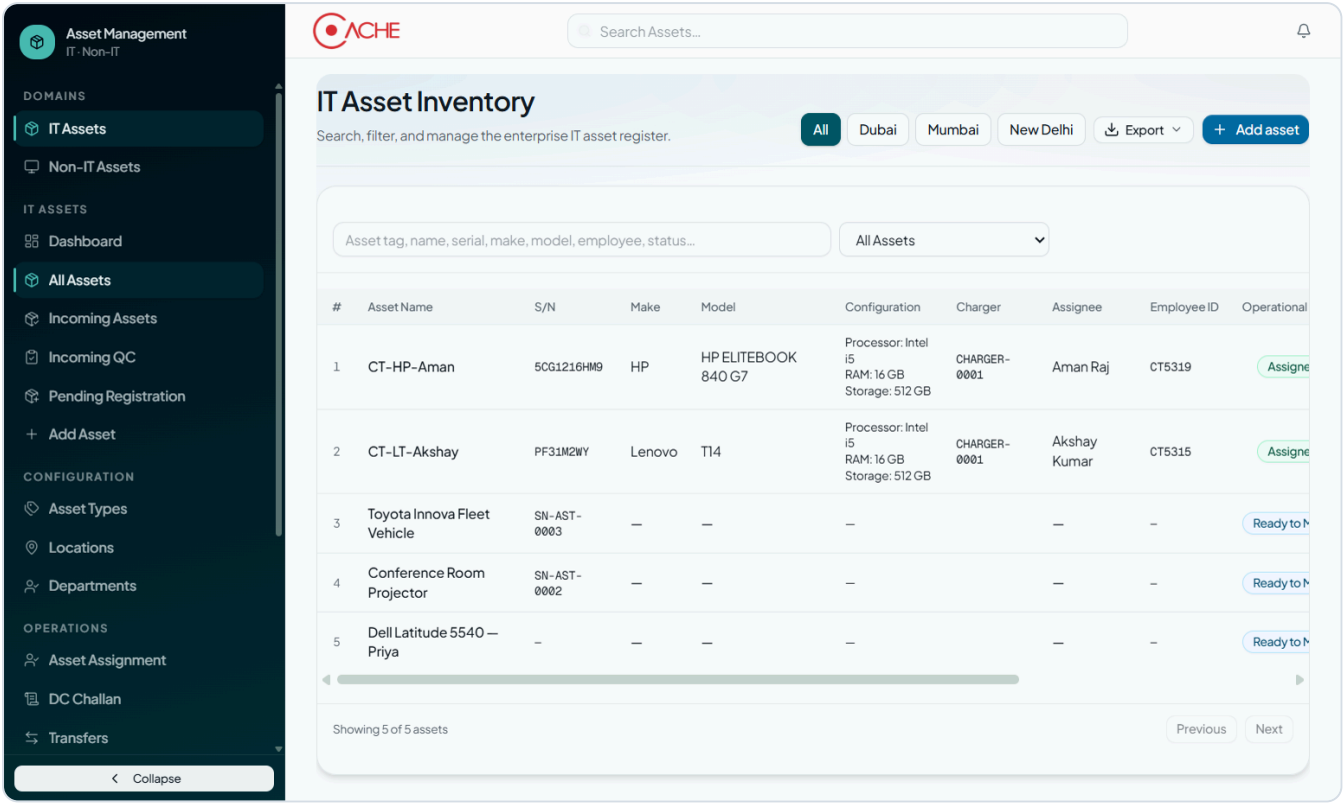

Figure A-01 - IT Asset Inventory with demo laptop CT-HP-Aman.

Step 02 - Incoming Assets

Record shipments under **Incoming Assets** when stock arrives from vendors or branches. Capture packing references before QC.

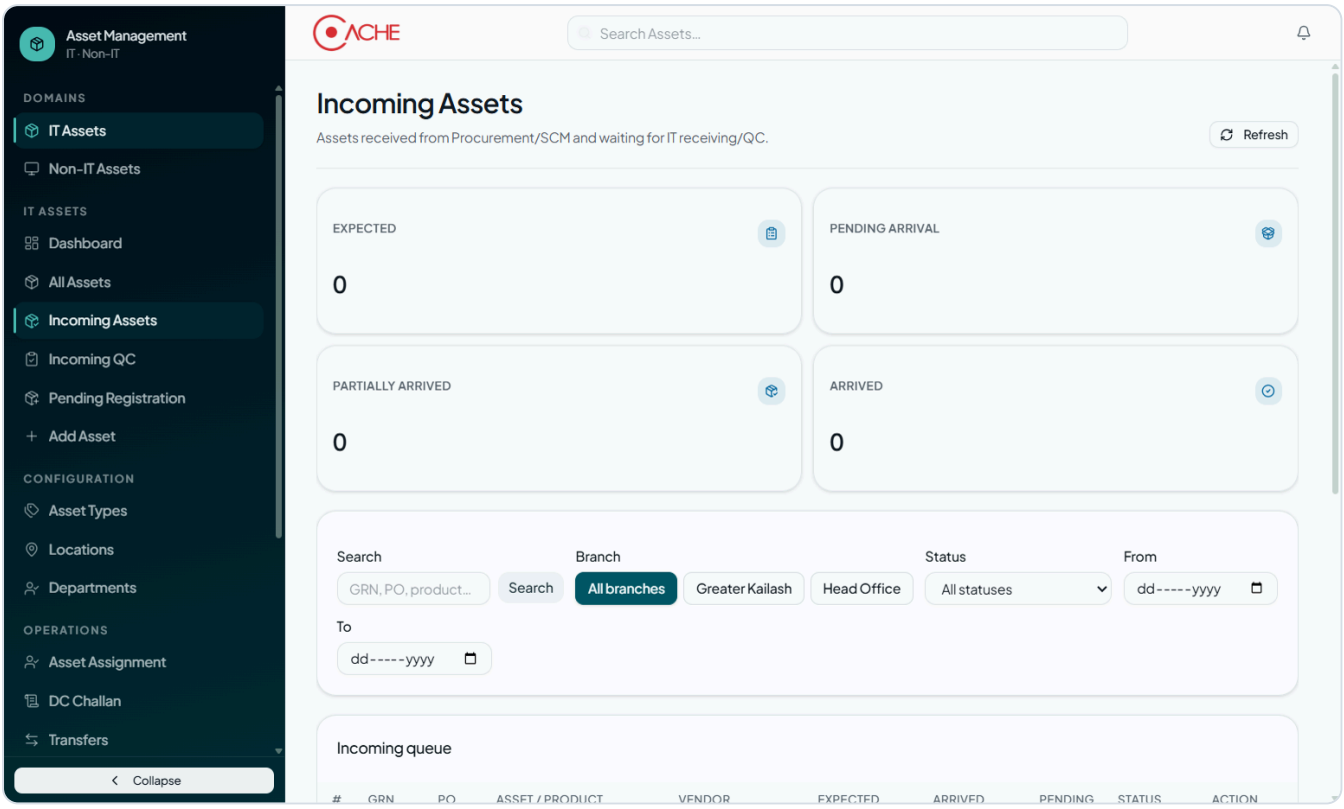

Figure A-02 - Incoming Assets intake list.

Step 03 - Incoming QC

Inspect received units on **Incoming QC**. Pass or fail serials, note defects, and release approved units toward registration.

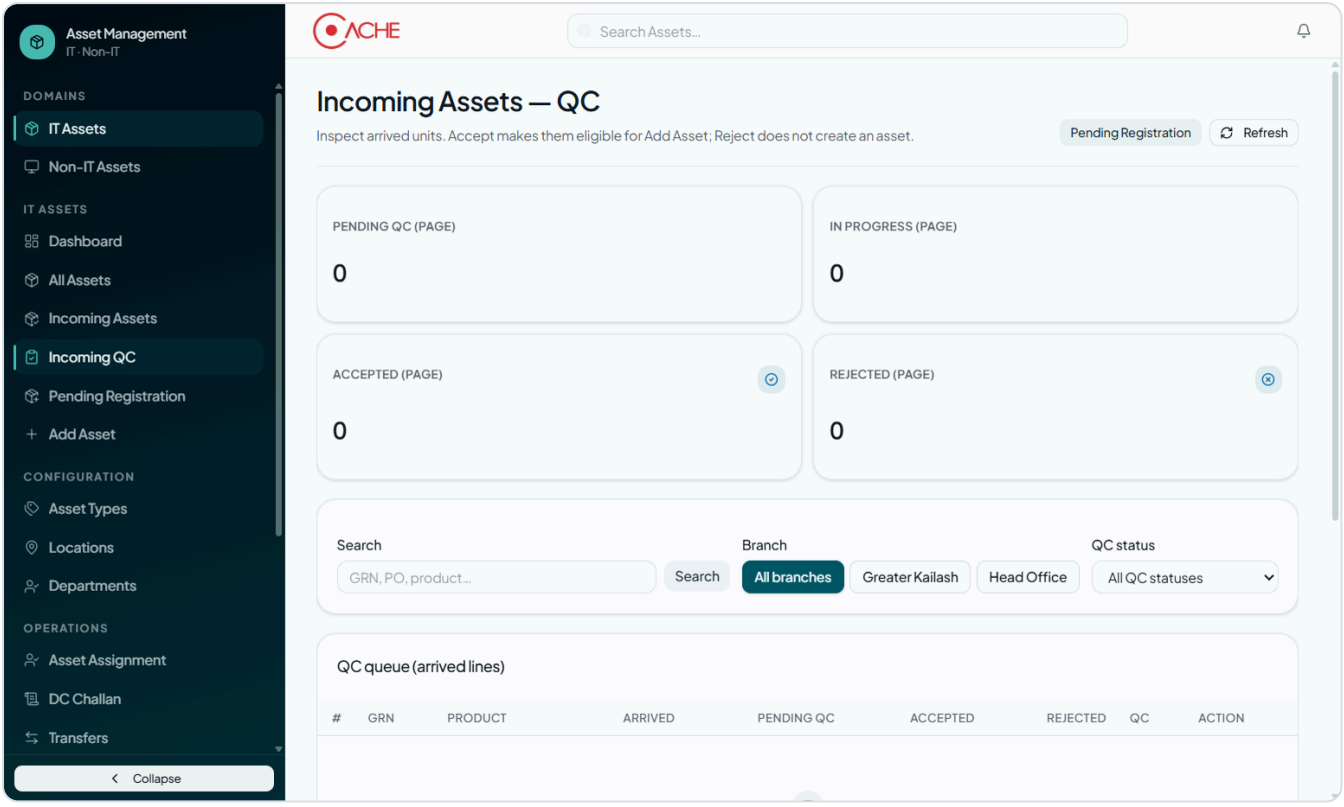

Figure A-03 - Incoming QC queue.

Step 04 - Pending Registration

Complete tag, type, make, and model on **Pending Registration** so the asset enters the live register.

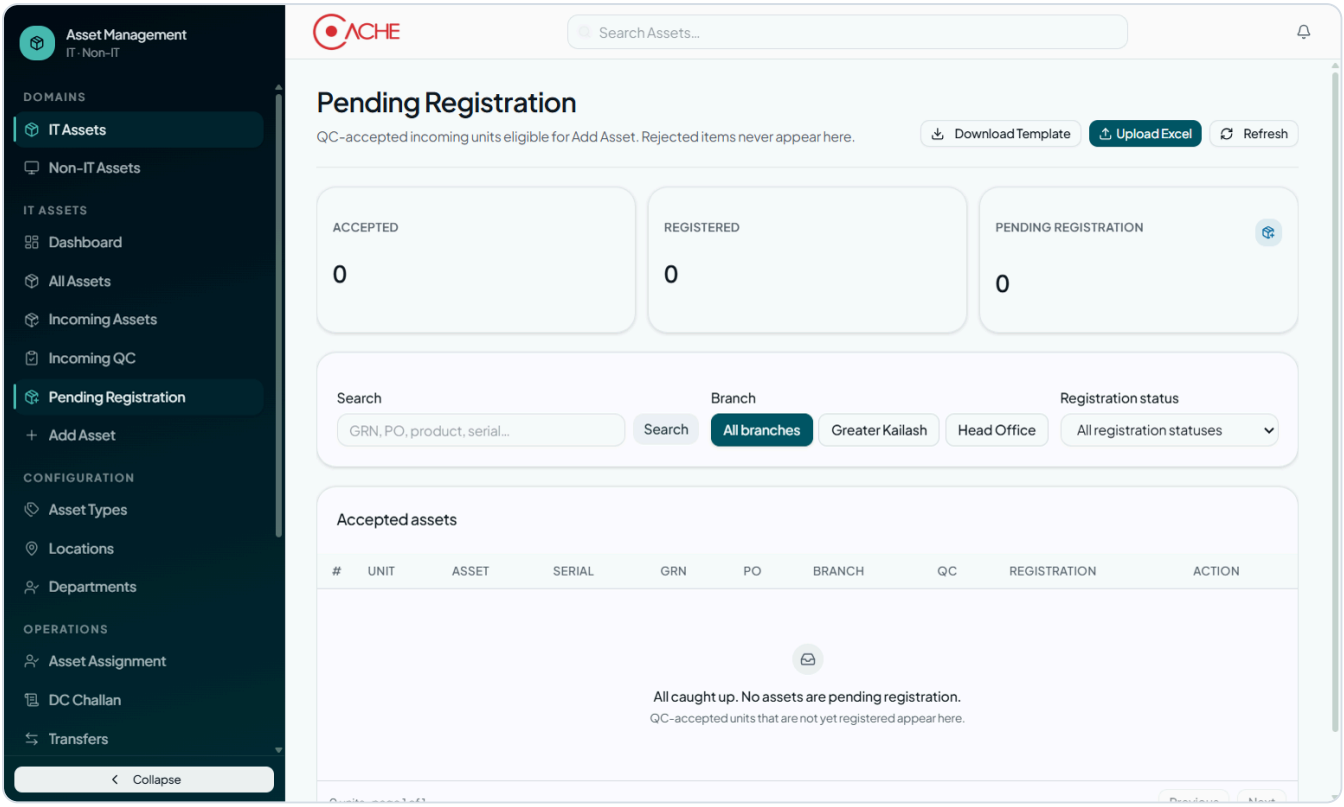

Figure A-04 - Assets waiting for registration.

Step 05 - Add Asset

Use **+ Add Asset** for direct registration when intake is not required. Enter identity, configuration, location, and accessories.

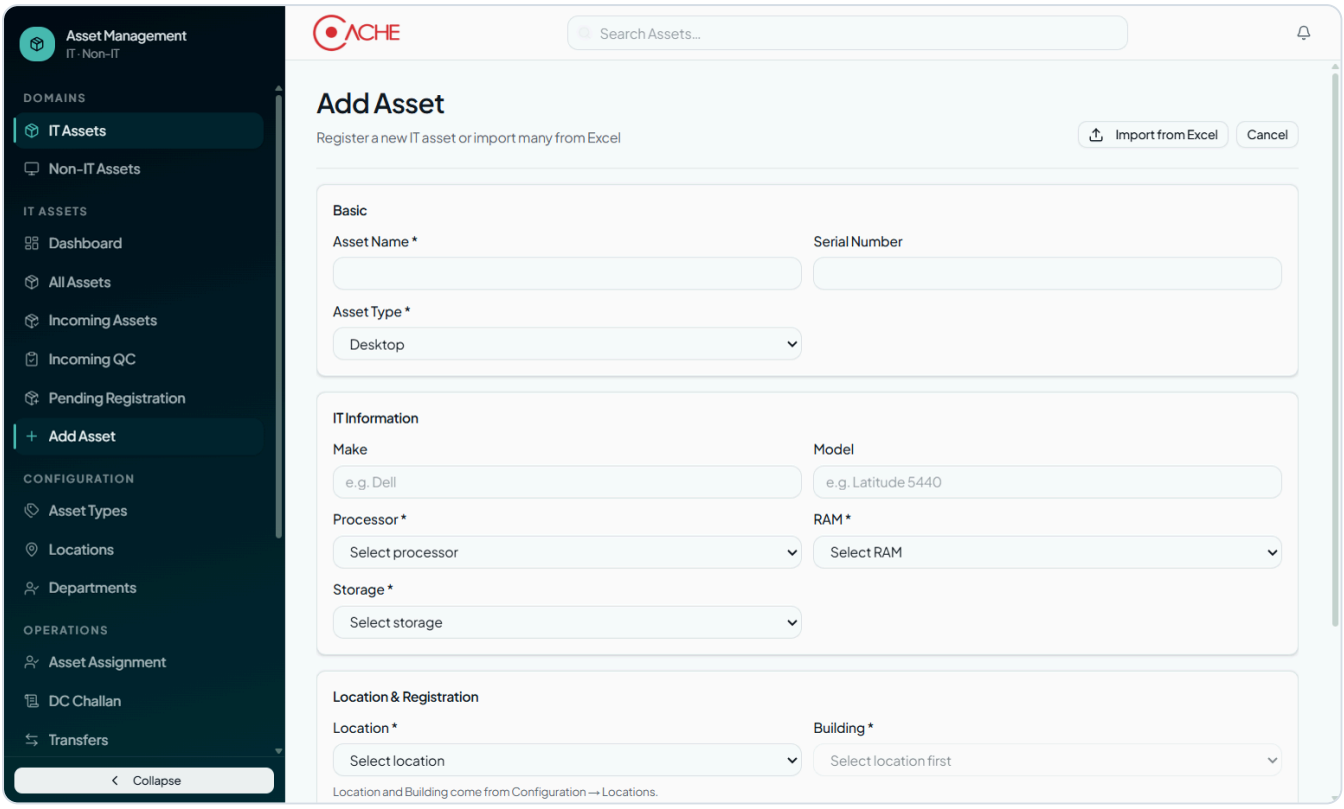

Figure A-05 - Add Asset form.

Step 06 - Asset Assignment

Issue assets to employees on **Asset Assignment**. Track assignee, employee ID, location, assignment date, and DC Challan status.

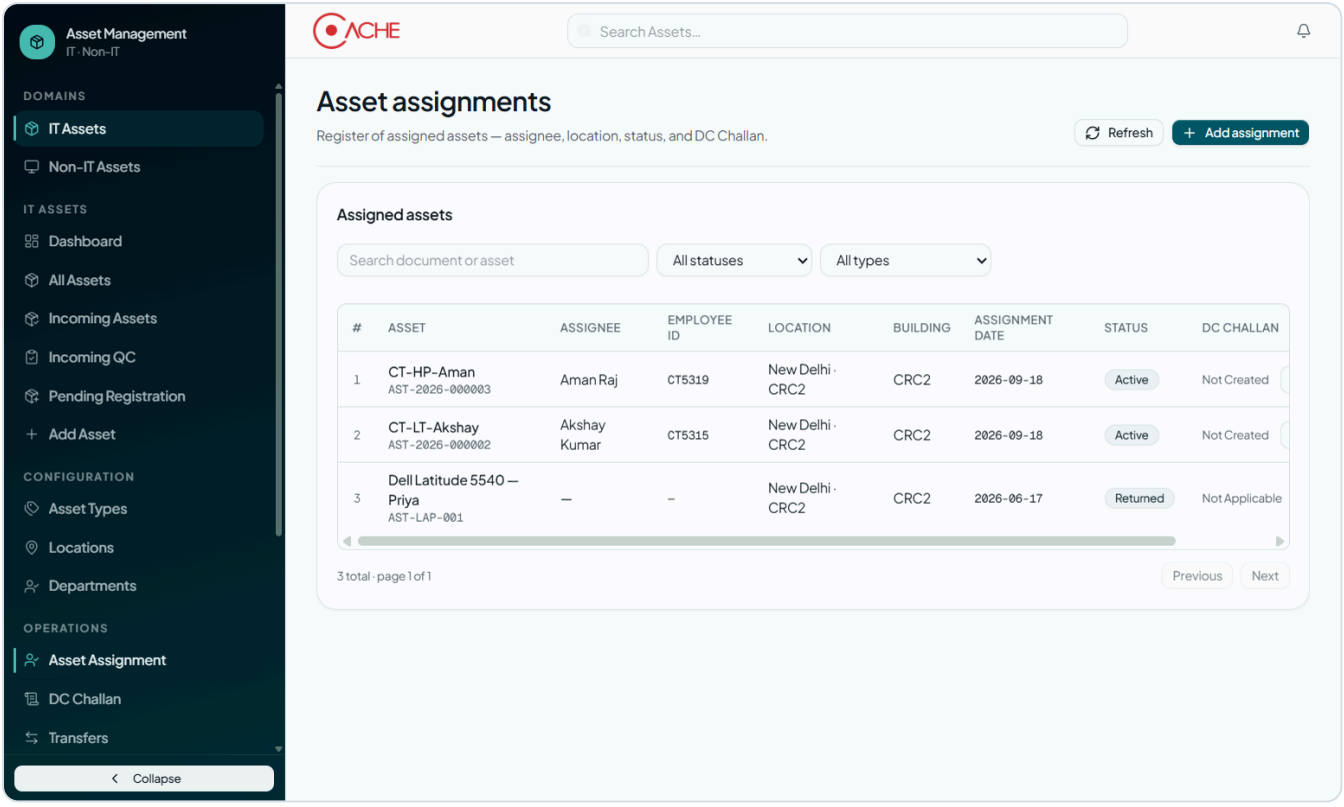

Figure A-06 - Assignments including CT-HP-Aman to Aman Raj.

Step 07 - DC Challan

Create and track delivery challans on **DC Challan** (Pending - Sent to SCM - Document received - Signed - Received). Independent of assignment delivery references.

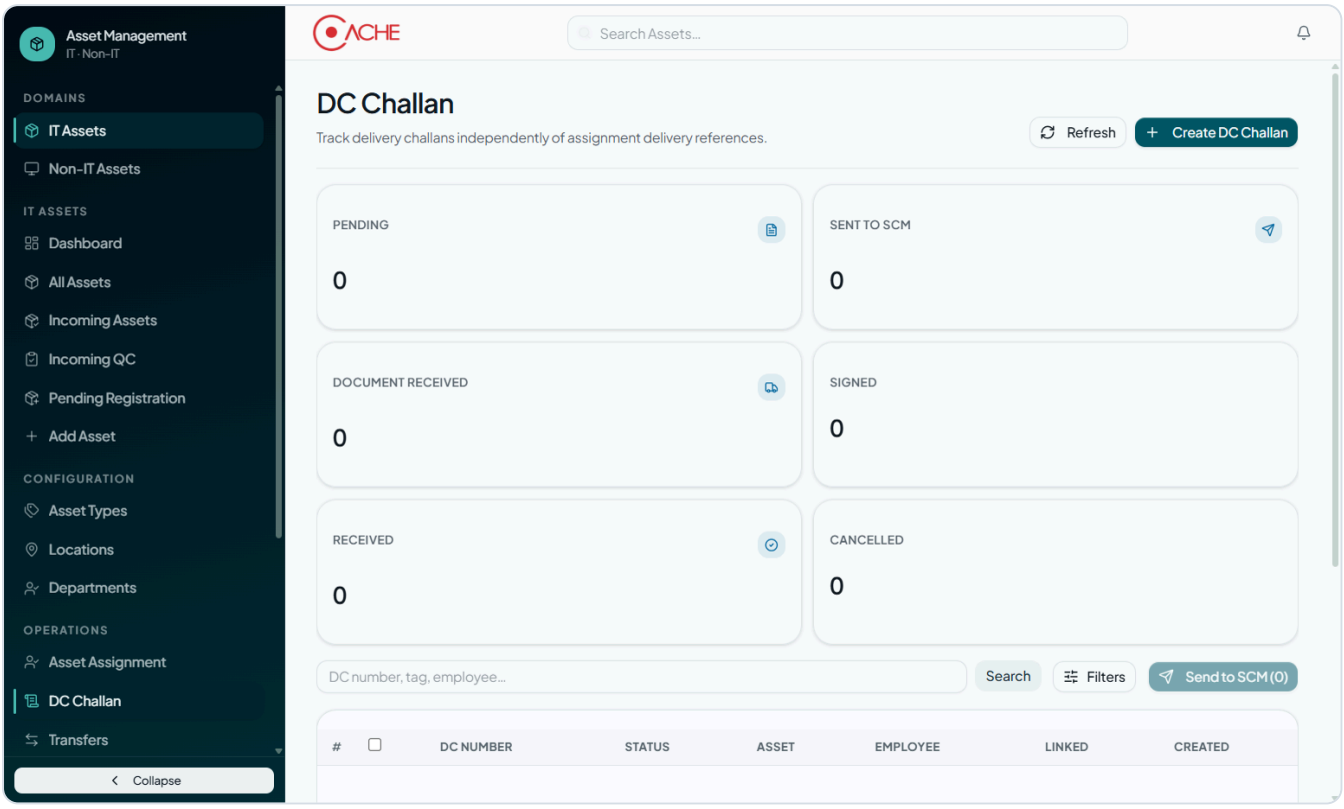

Figure A-07 - DC Challan status boards.

Step 08 - Transfers

Move assets between locations on **Transfers**. Documents progress Draft - Submitted - Approved - Completed (or Cancelled).

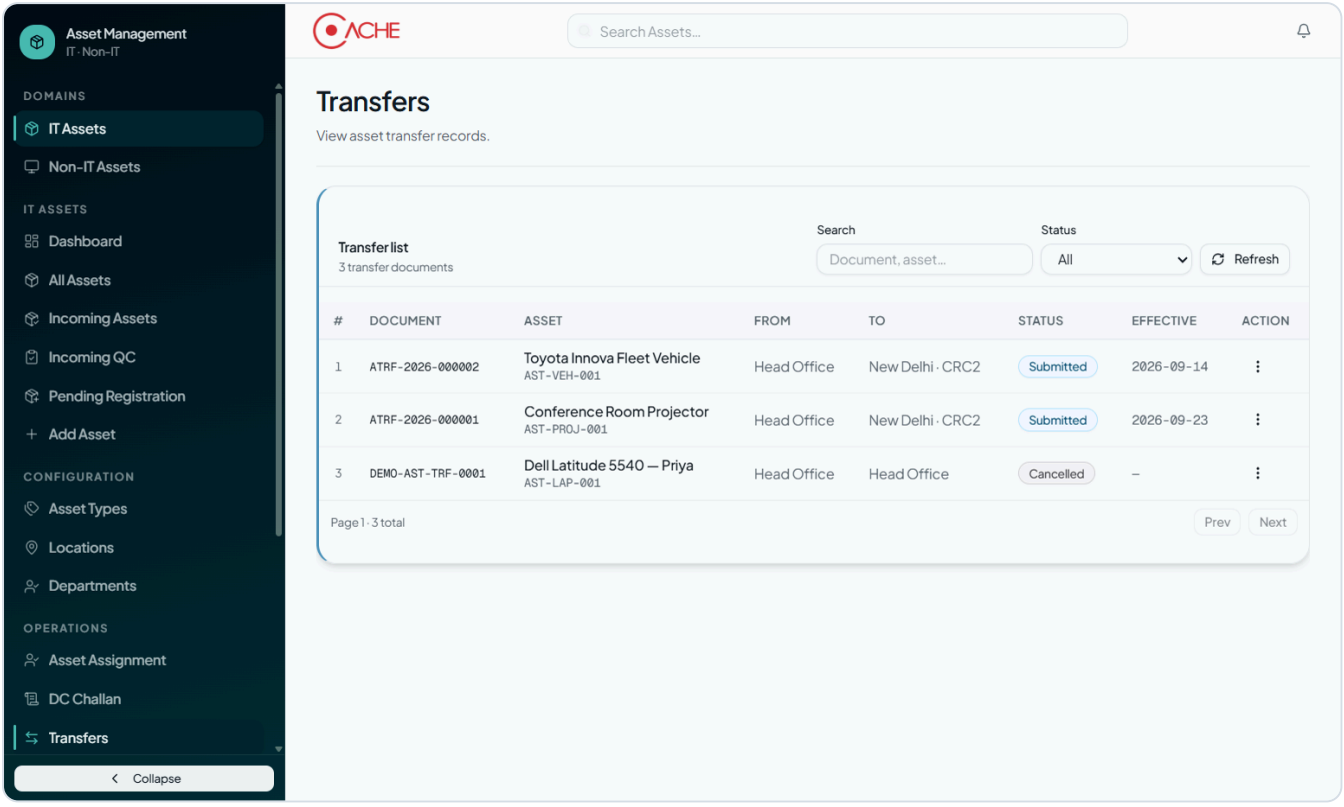

Figure A-08 - Transfer list with submitted and cancelled documents.

Step 09 - Maintenance

Open work orders on **Maintenance**. Record reason, expected duration, and return date. Use Show history for closed jobs.

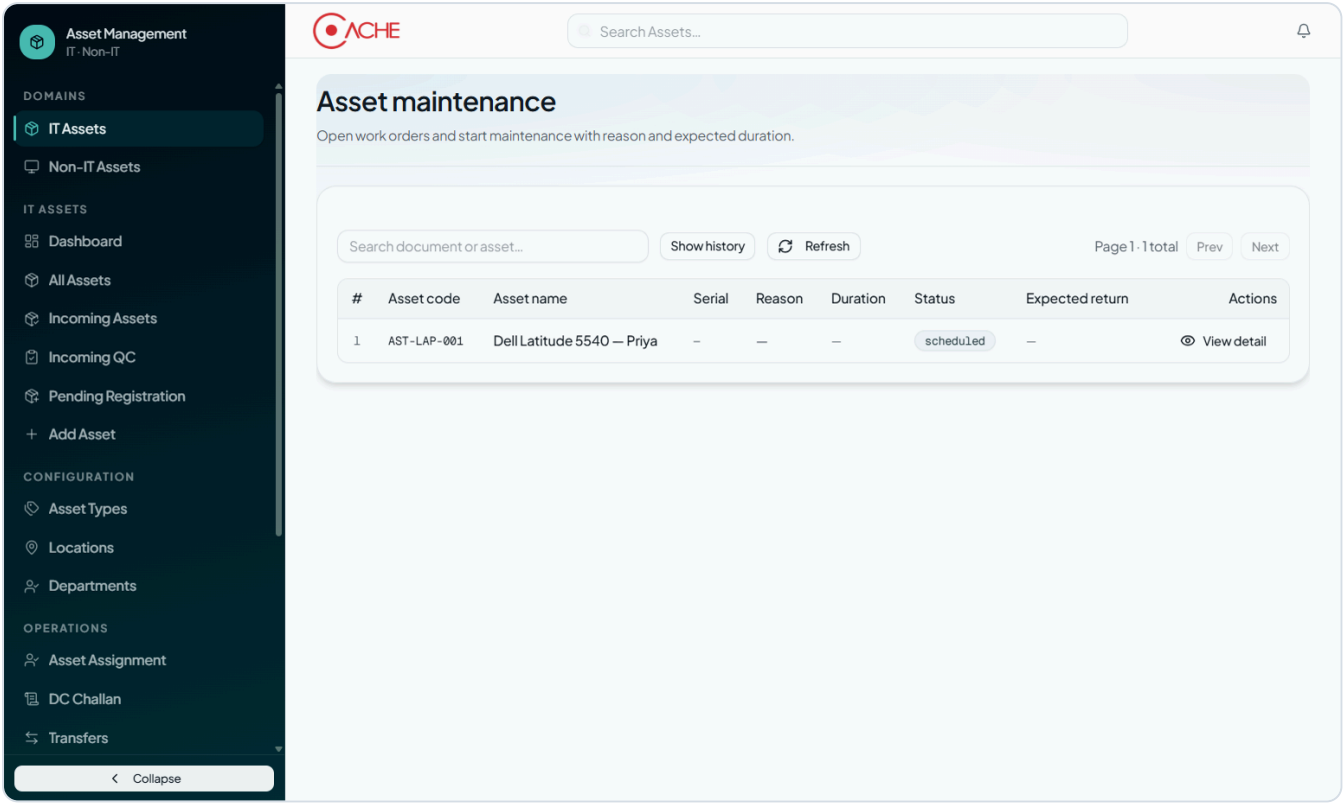

Figure A-09 - Asset maintenance open work orders.

Step 10 - Disposal

Retire assets on **Disposal**. View reason, approval, and disposal date from the disposed register.

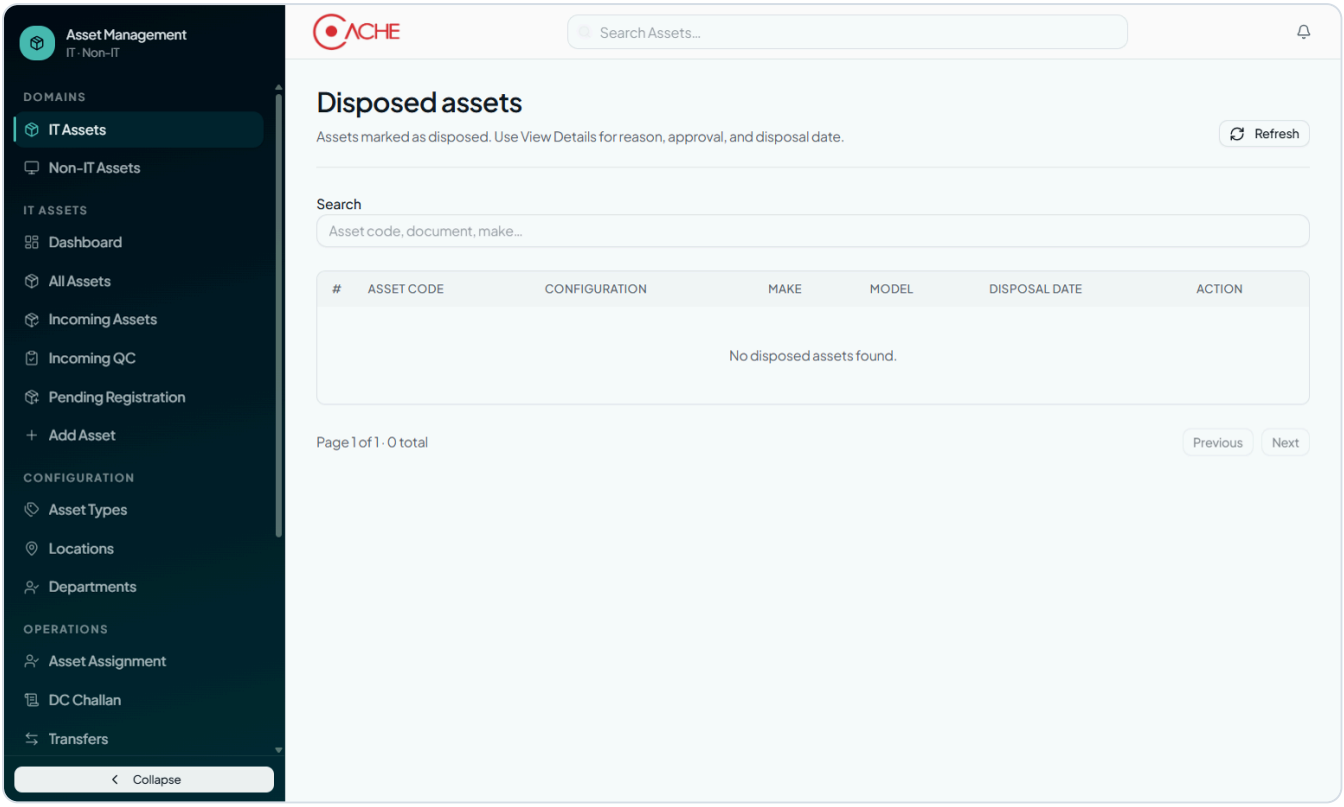

Figure A-10 - Disposed assets list.

Step 11 - Components

Install chargers, batteries, and other accessories on **Components**. Link lightweight types or attach a registered child asset to a parent.

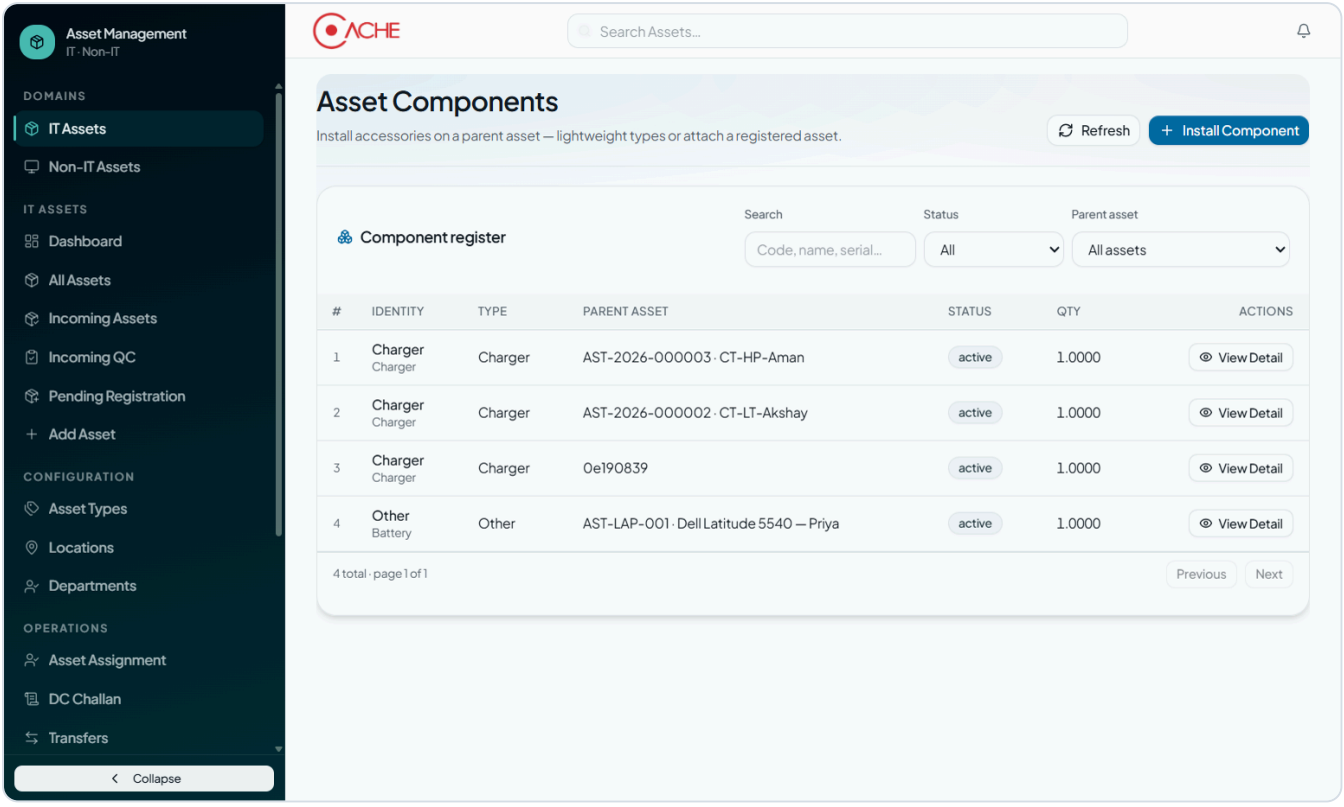

Figure A-11 - Component register with charger on CT-HP-Aman.

Step 12 - Documents

Attach warranties, invoices, and photos from **Documents**. Open View Documents on an asset row (demo: three files on CT-HP-Aman).

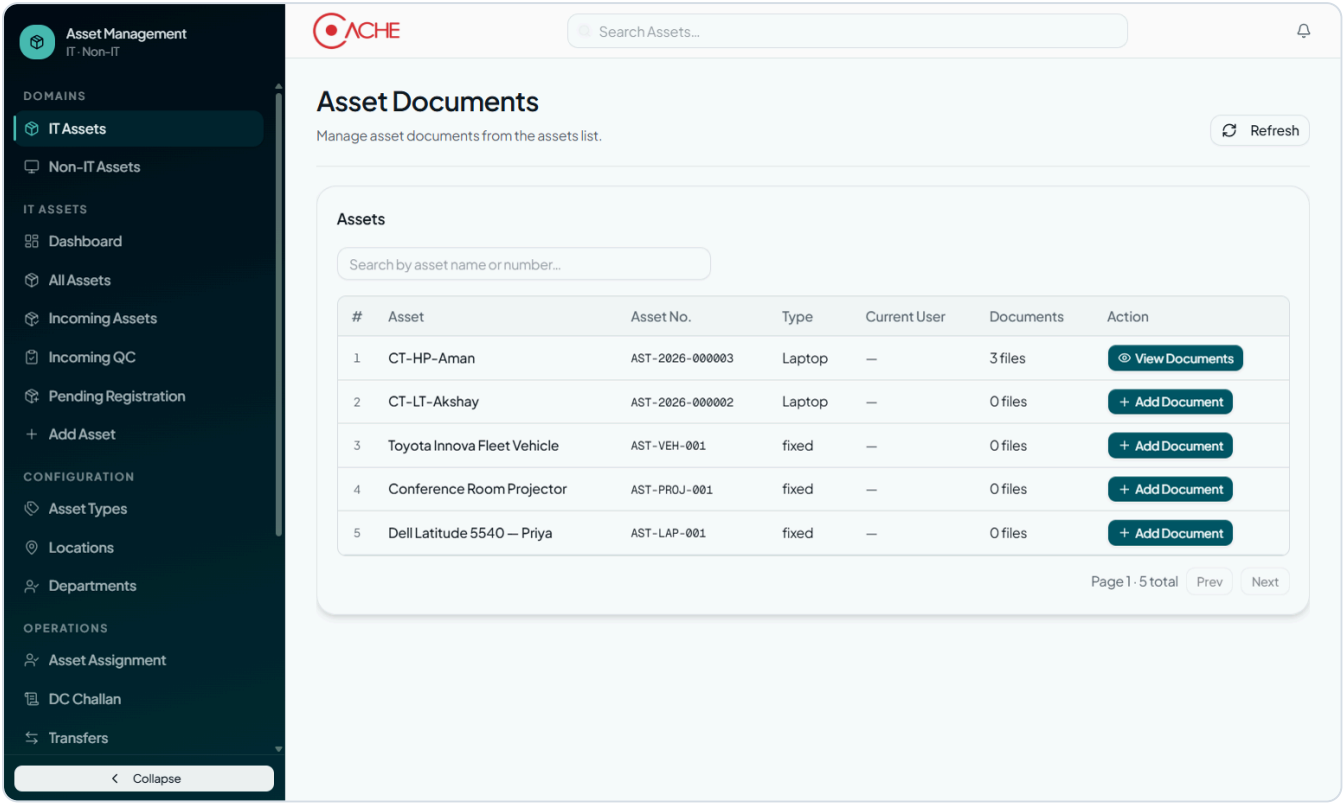

Figure A-12 - Asset Documents coverage list.

Step 13 - Reports

Review analytics on **Reports**: document coverage, components, assignment usage, and lifecycle open counts - separate from the operational dashboard.

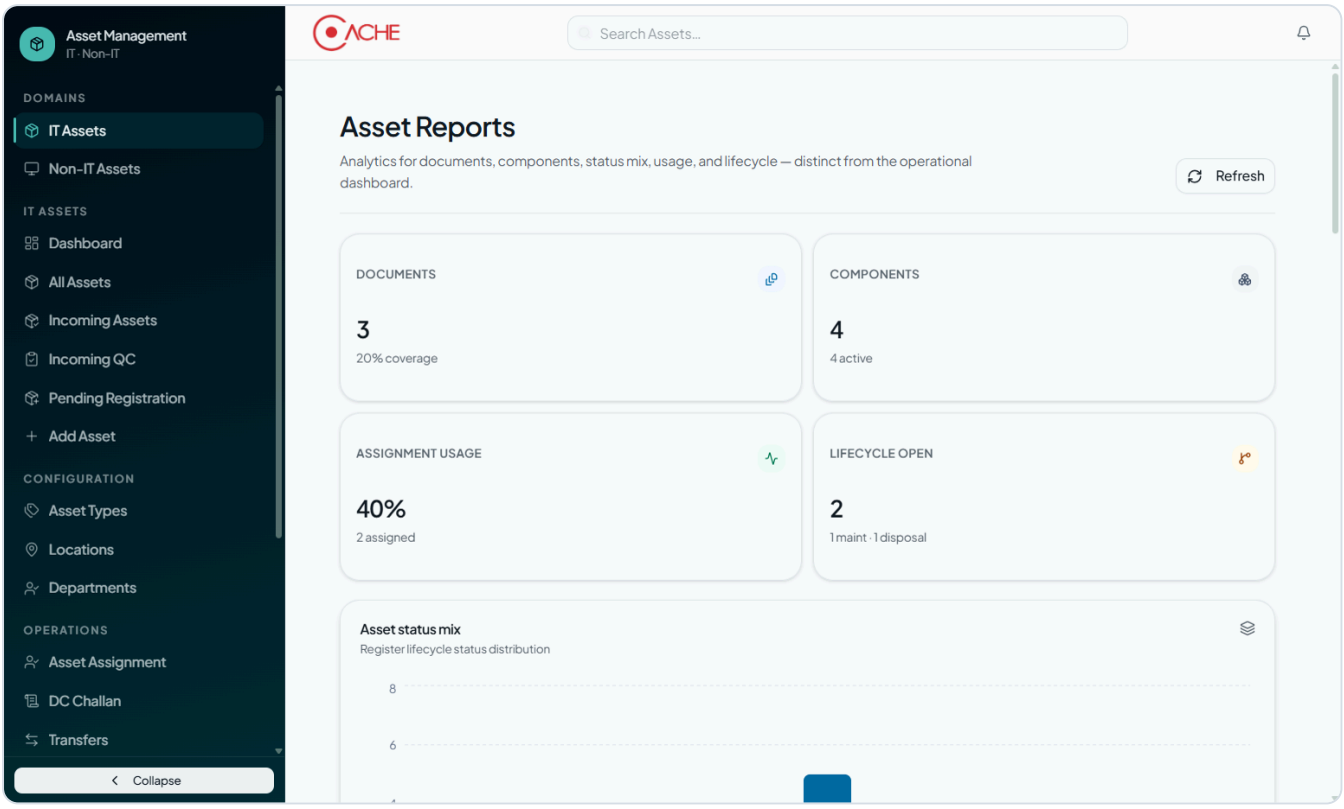

Figure A-13 - Asset Reports KPI cards and status mix.

Step 14 - Non-IT Assets

Switch domain to **Non-IT Assets** for furniture, facilities, and other non-IT inventory. Use Inventory, Types, Locations, and Users under that domain.

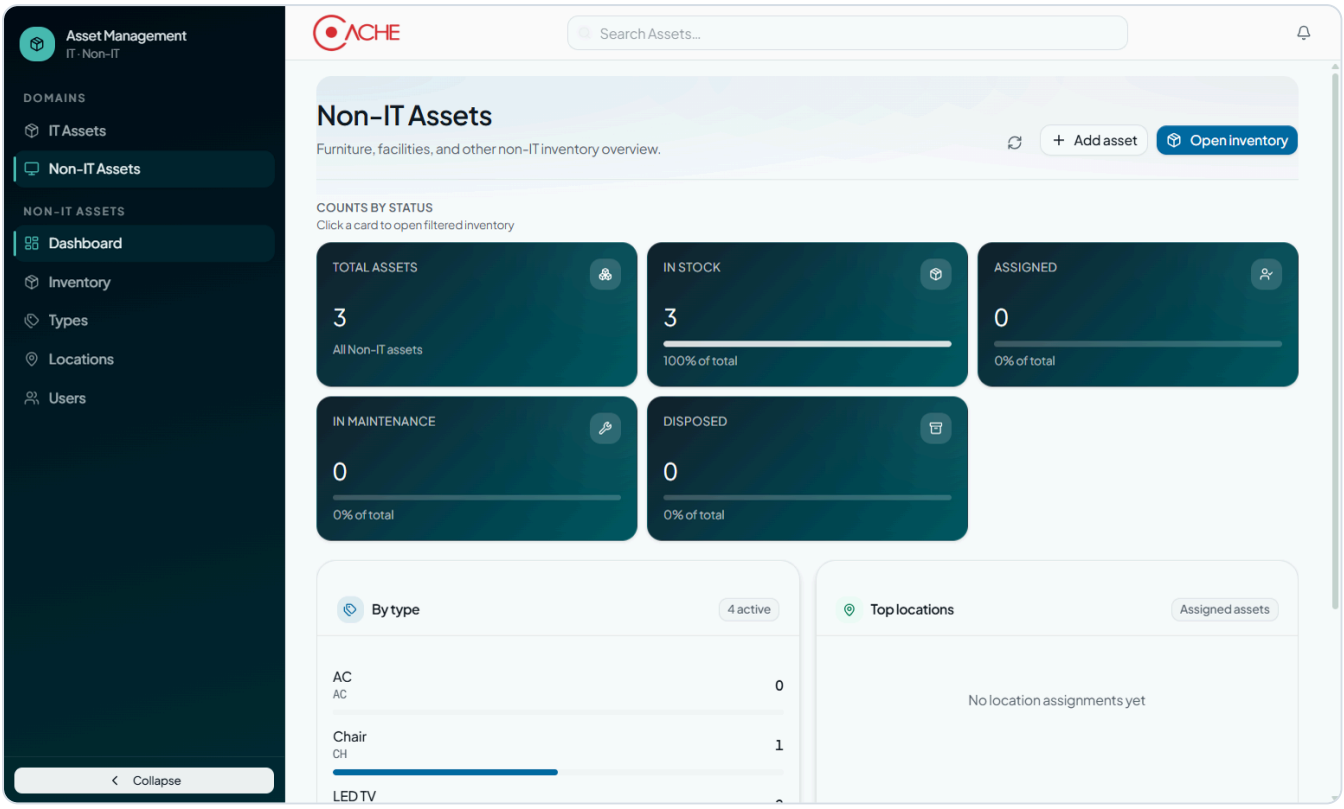

Figure A-14 - Non-IT Assets dashboard overview.

Step 15 - Asset detail drawer

From All Assets, open **View** on an item (demo: `CT-HP-Aman` / `AST-2026-000003`). The drawer shows Overview, Assignment, IT Information, Location, Accessories, Delivery Challan, Remarks, and Assignment history.

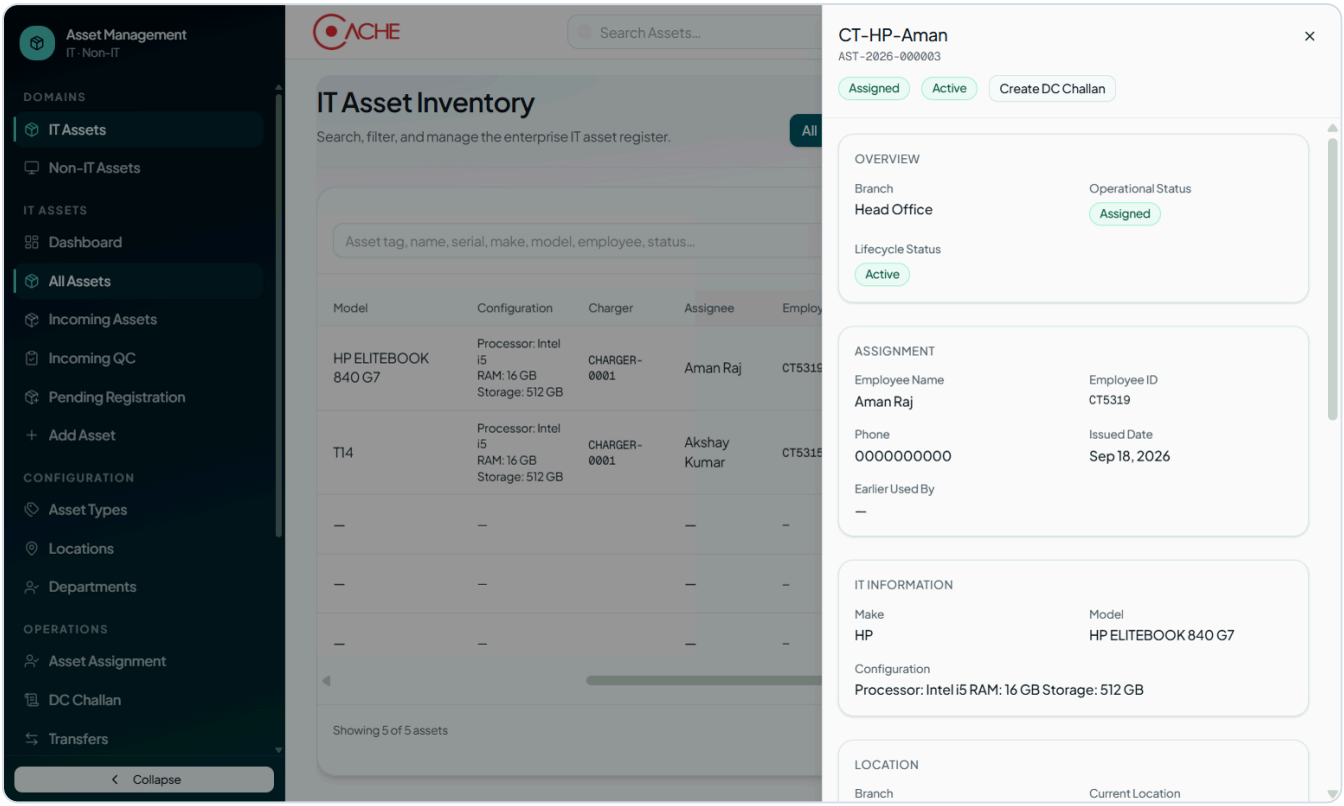

Figure A-15 - Detail drawer for CT-HP-Aman assigned to Aman Raj.

Part B - Sidebar reference

Pane-by-pane glossary matching the Asset Management left navigation. Non-IT switches the domain and shows its own Inventory / Types / Locations / Users set.

B.01 Dashboard

IT assets executive overview - counts and quick status.

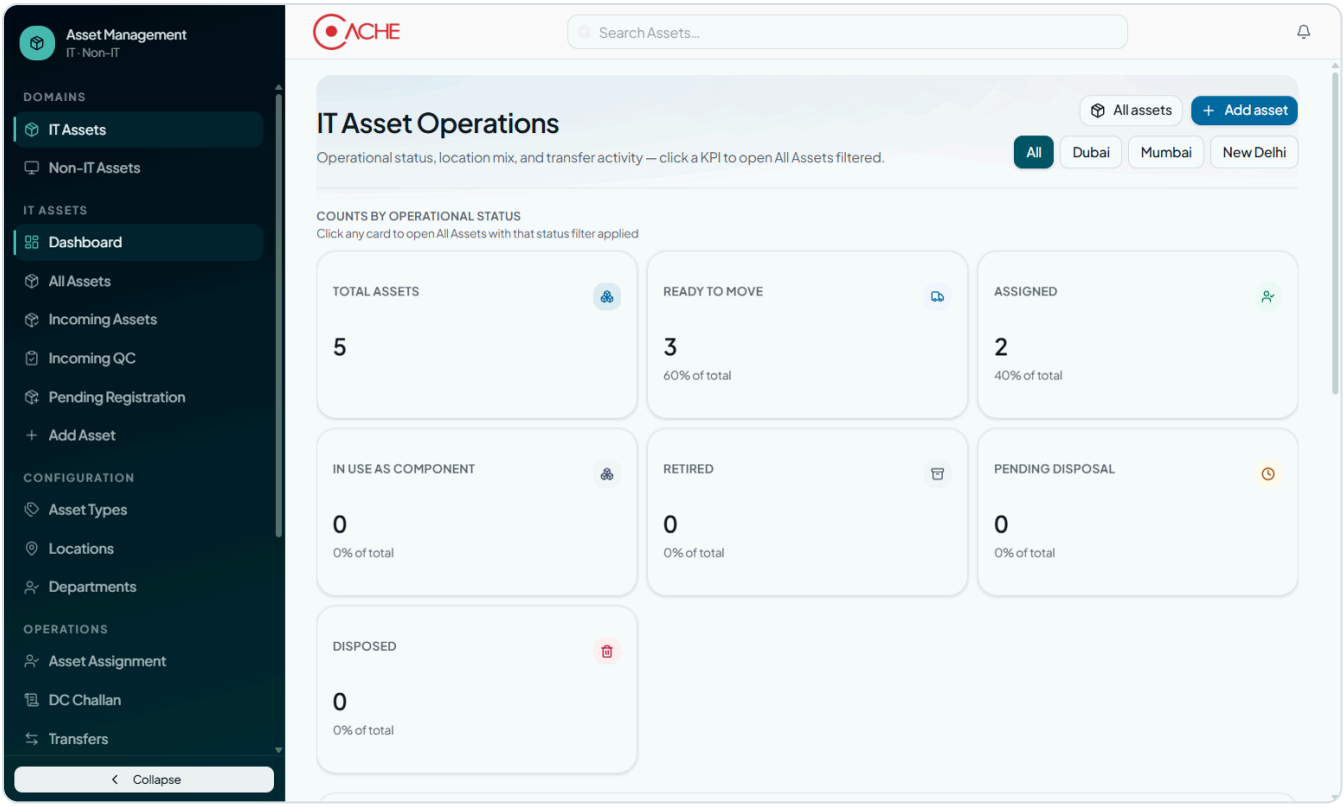

Figure B-01 - Dashboard pane.

B.02 All Assets

Full IT inventory register and detail drawer.

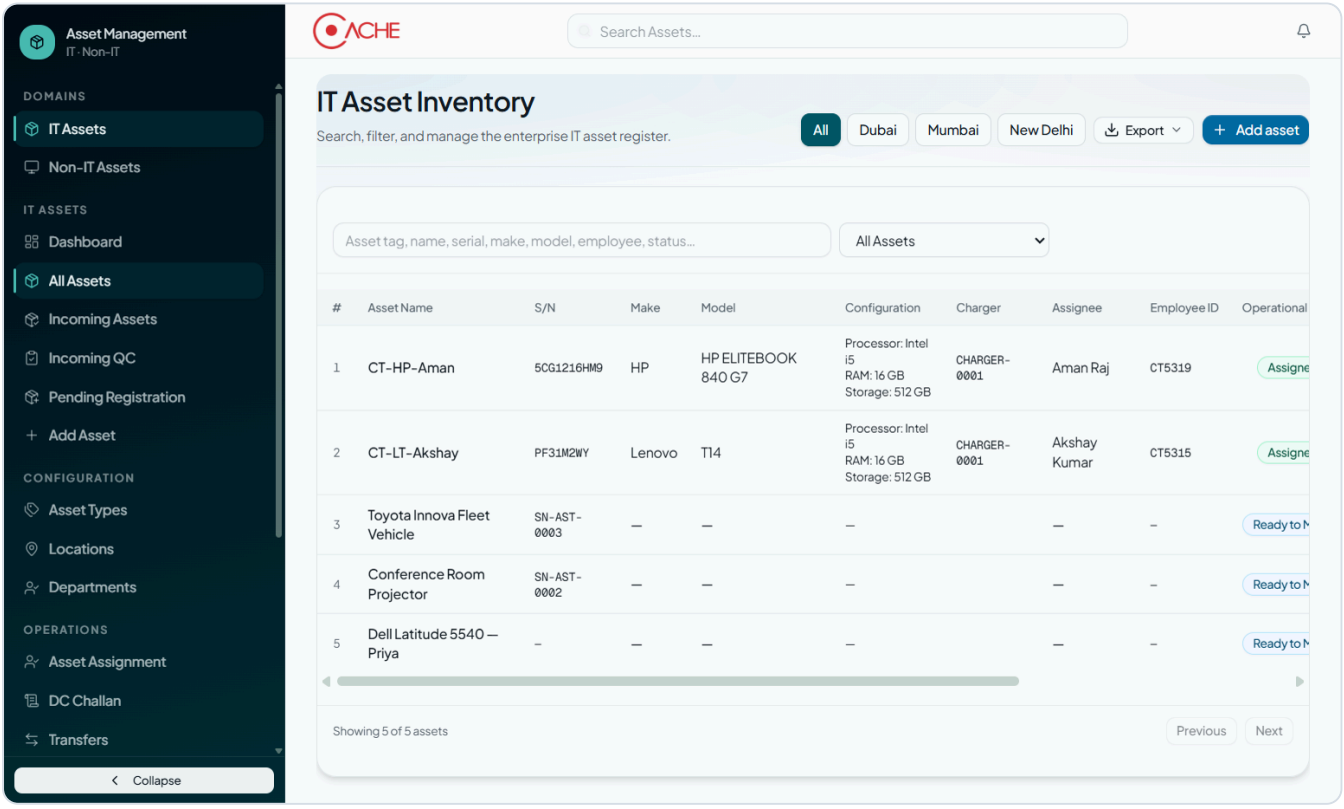

Figure B-02 - All Assets pane.

B.03 Incoming Assets

Shipment intake before QC.

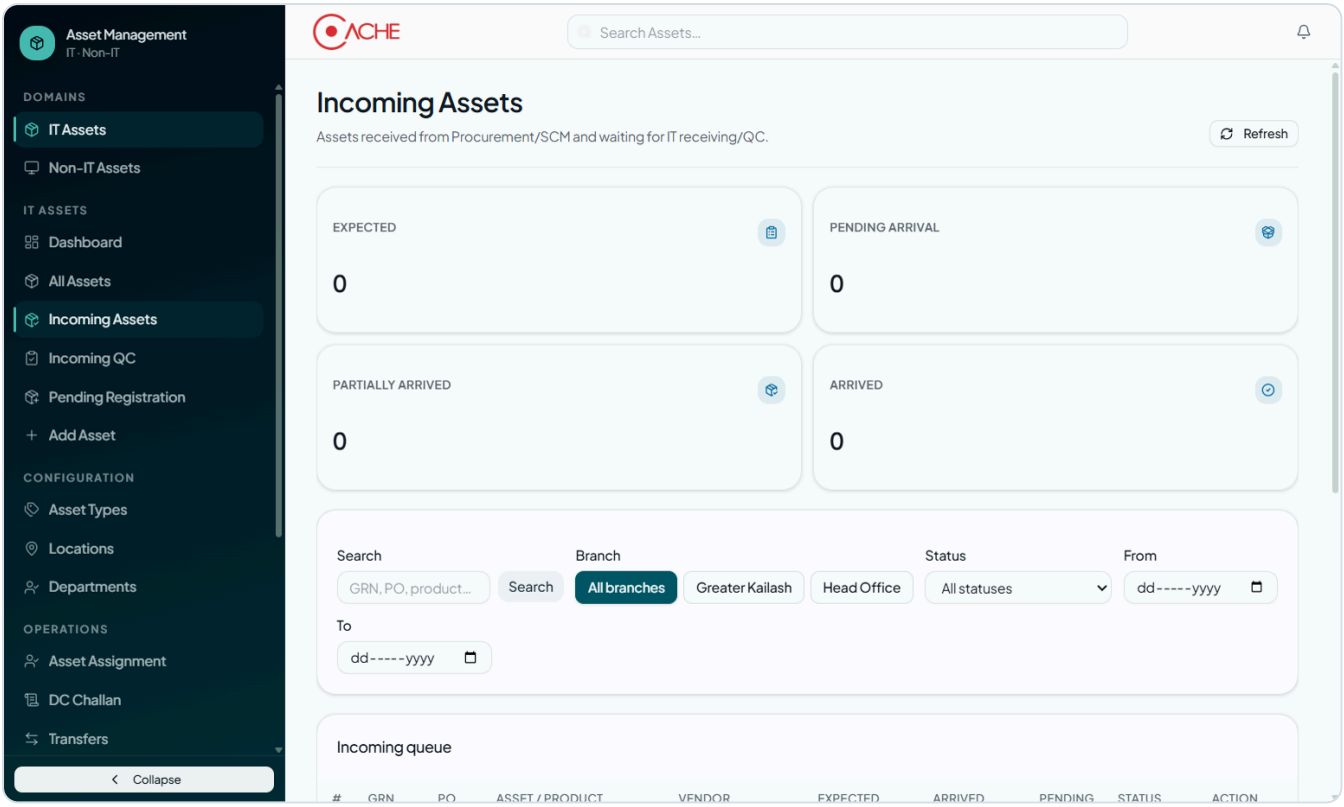

Figure B-03 - Incoming Assets pane.

B.04 Incoming QC

Quality inspection of received units.

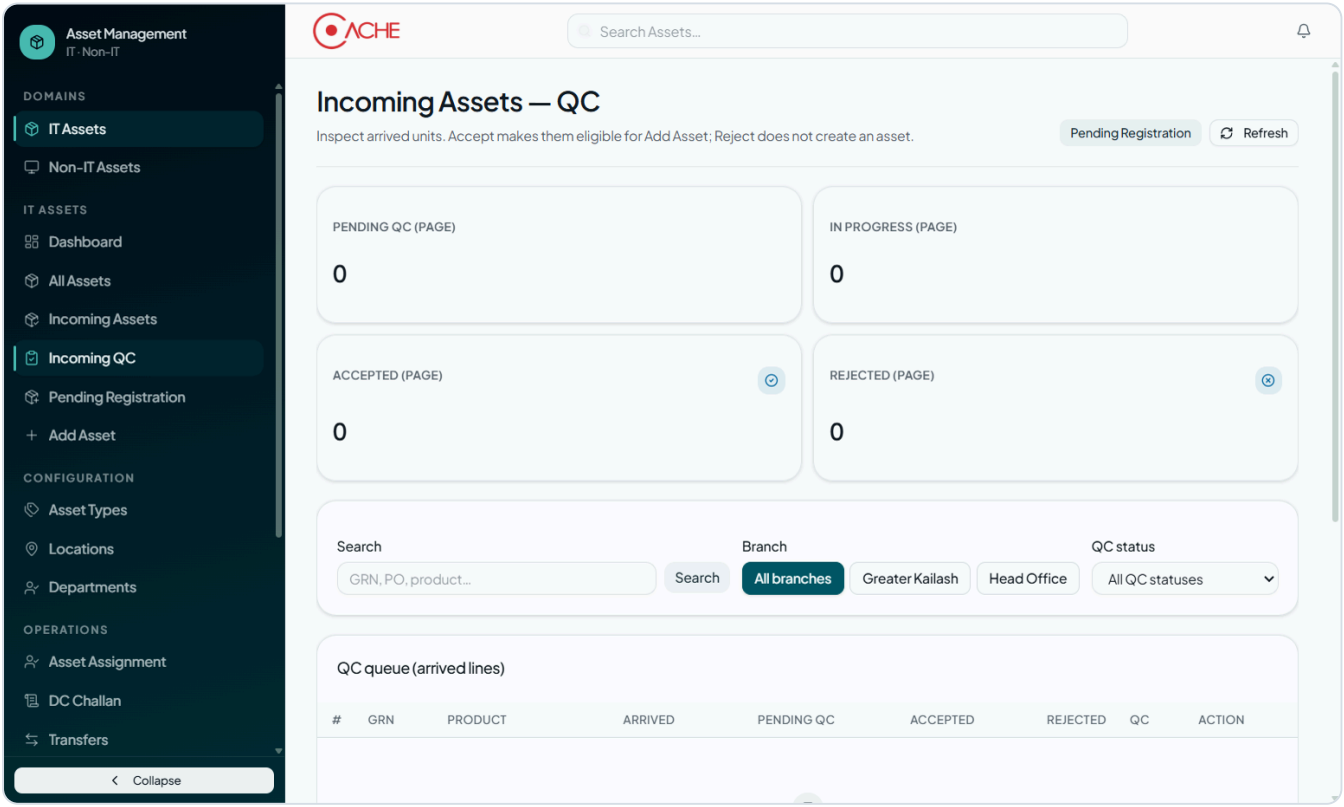

Figure B-04 - Incoming QC pane.

B.05 Pending Registration

Tag and register approved intake.

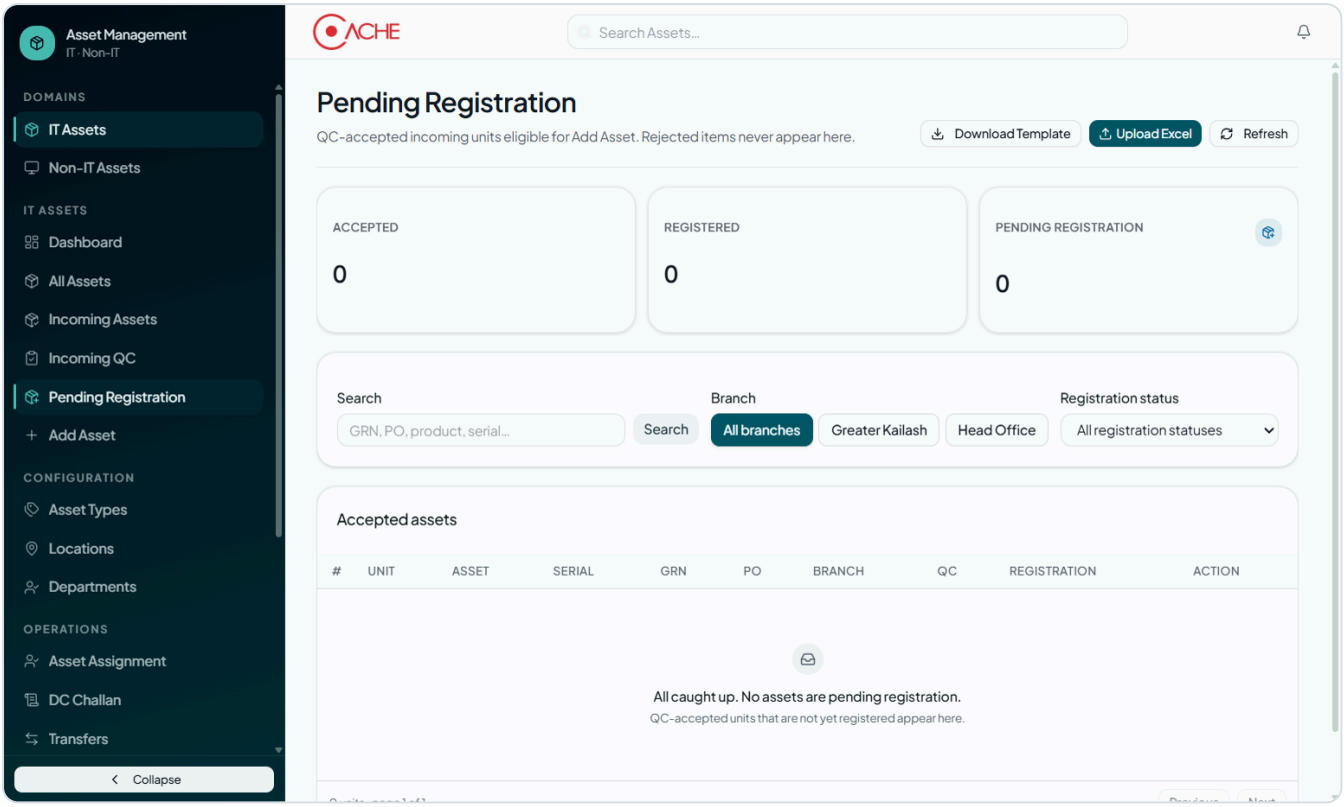

Figure B-05 - Pending Registration pane.

B.06 Add Asset

Direct create form for new IT assets.

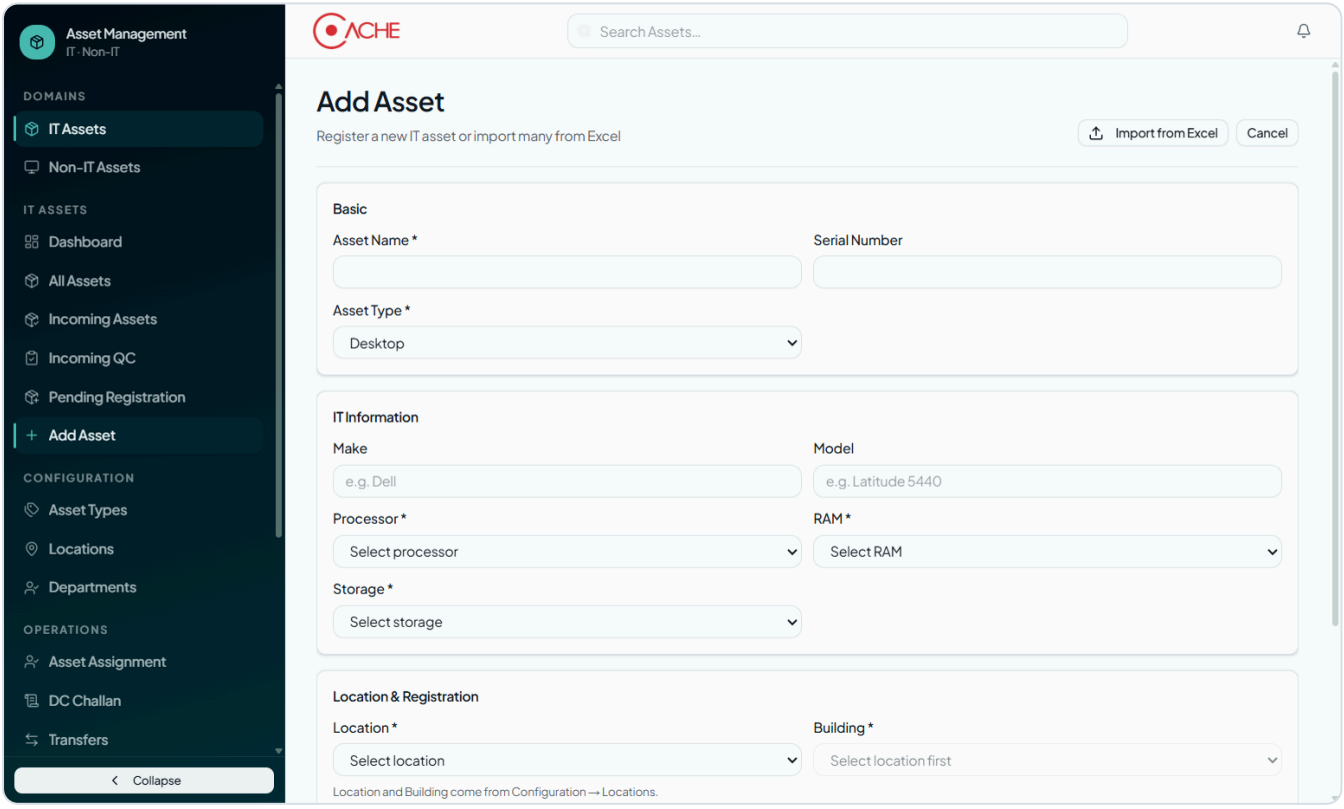

Figure B-06 - Add Asset pane.

B.07 Asset Types

Configuration - type catalog.

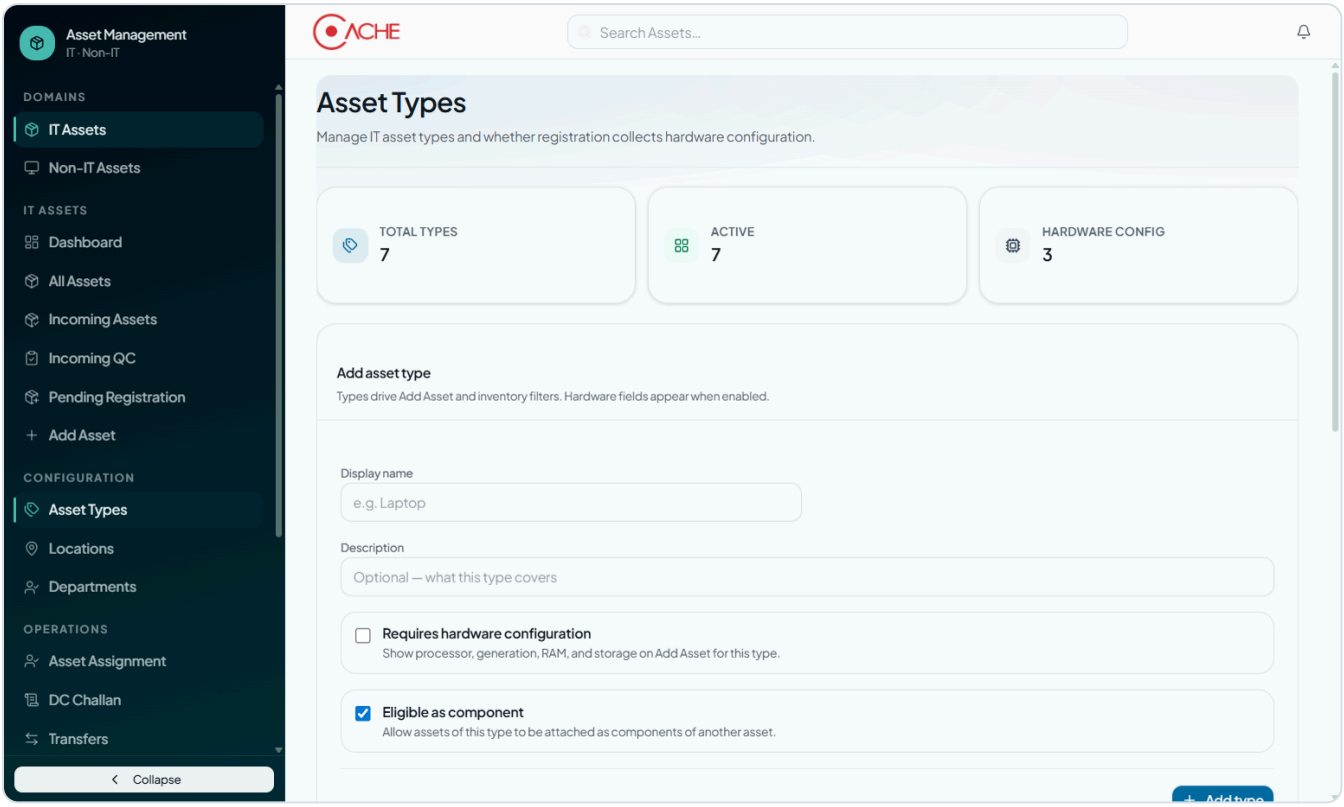

Figure B-07 - Asset Types pane.

B.08 Locations

Configuration - site / building master.

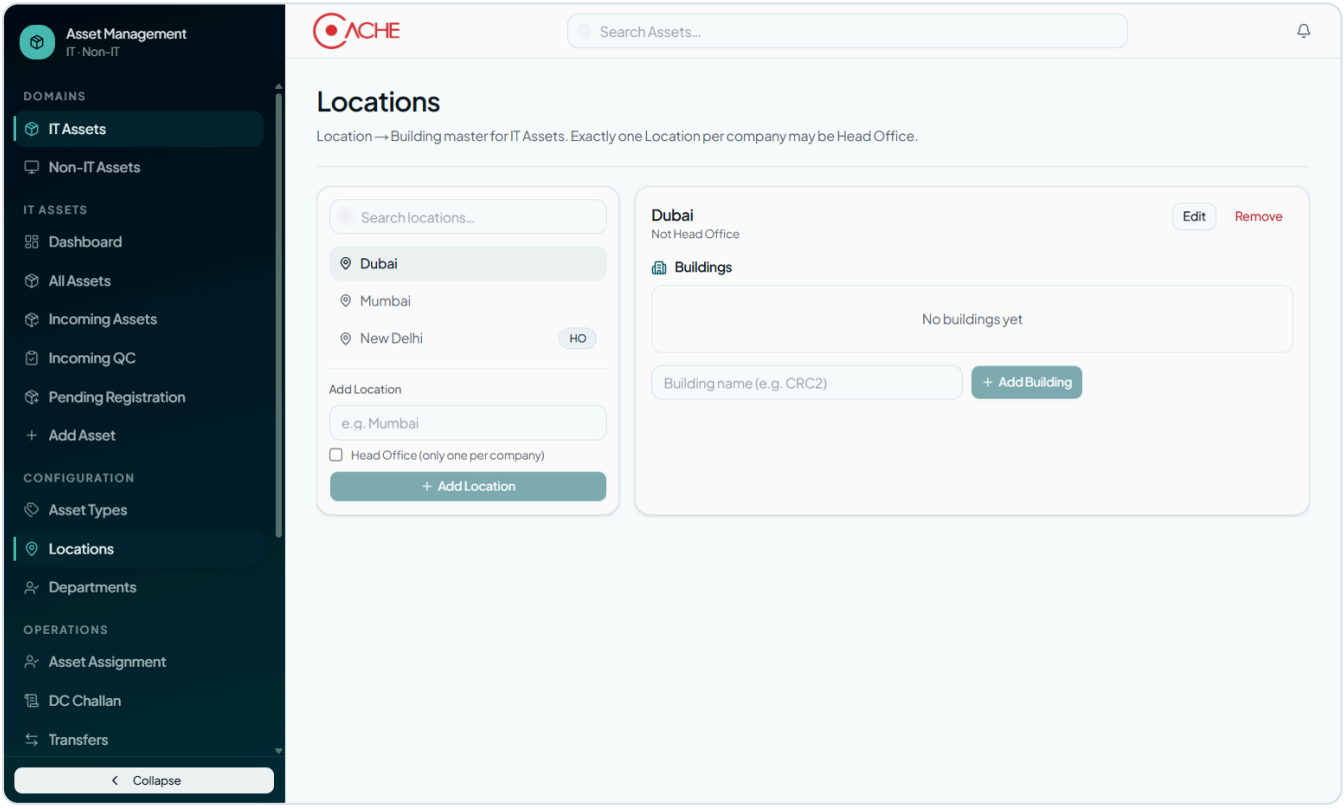

Figure B-08 - Locations pane.

B.09 Departments

Configuration - owning departments.

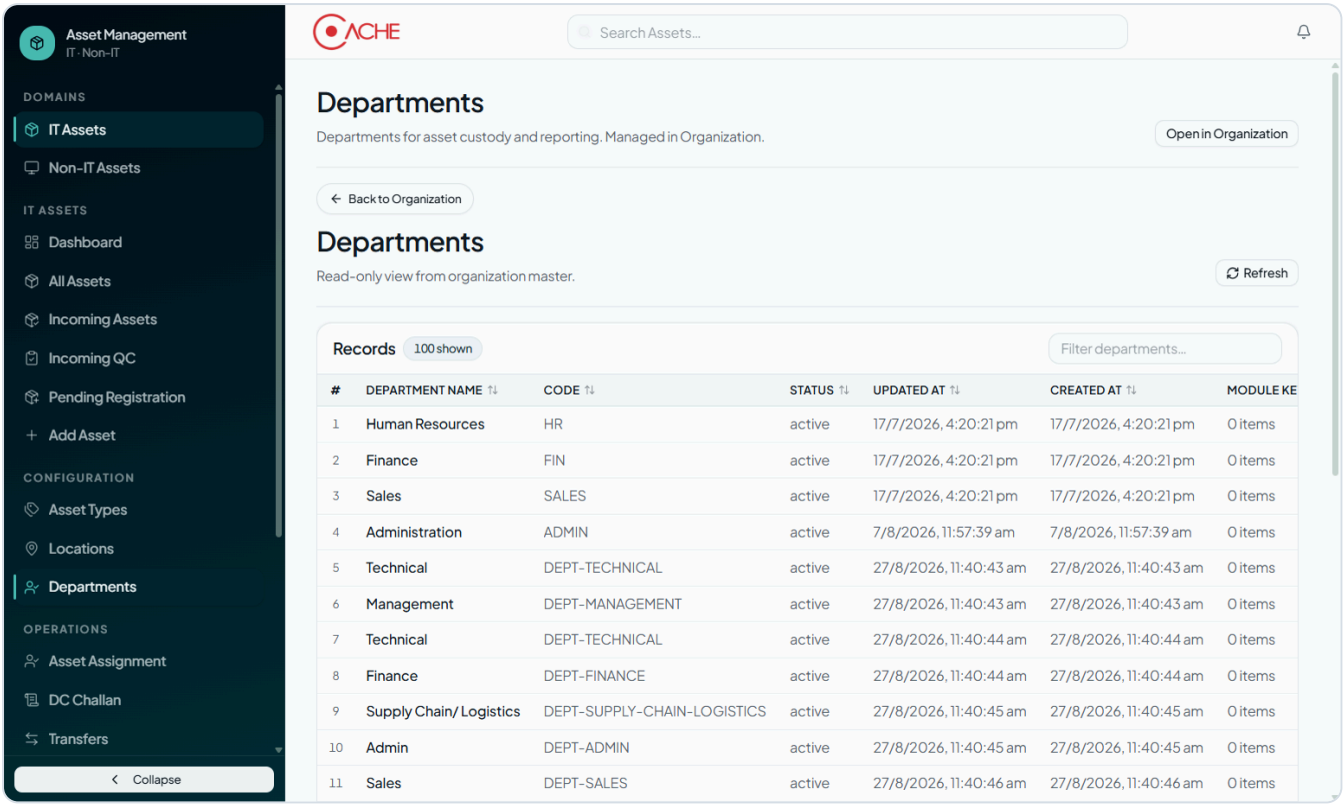

Figure B-09 - Departments pane.

B.10 Asset Assignment

Issue / return register and DC linkage.

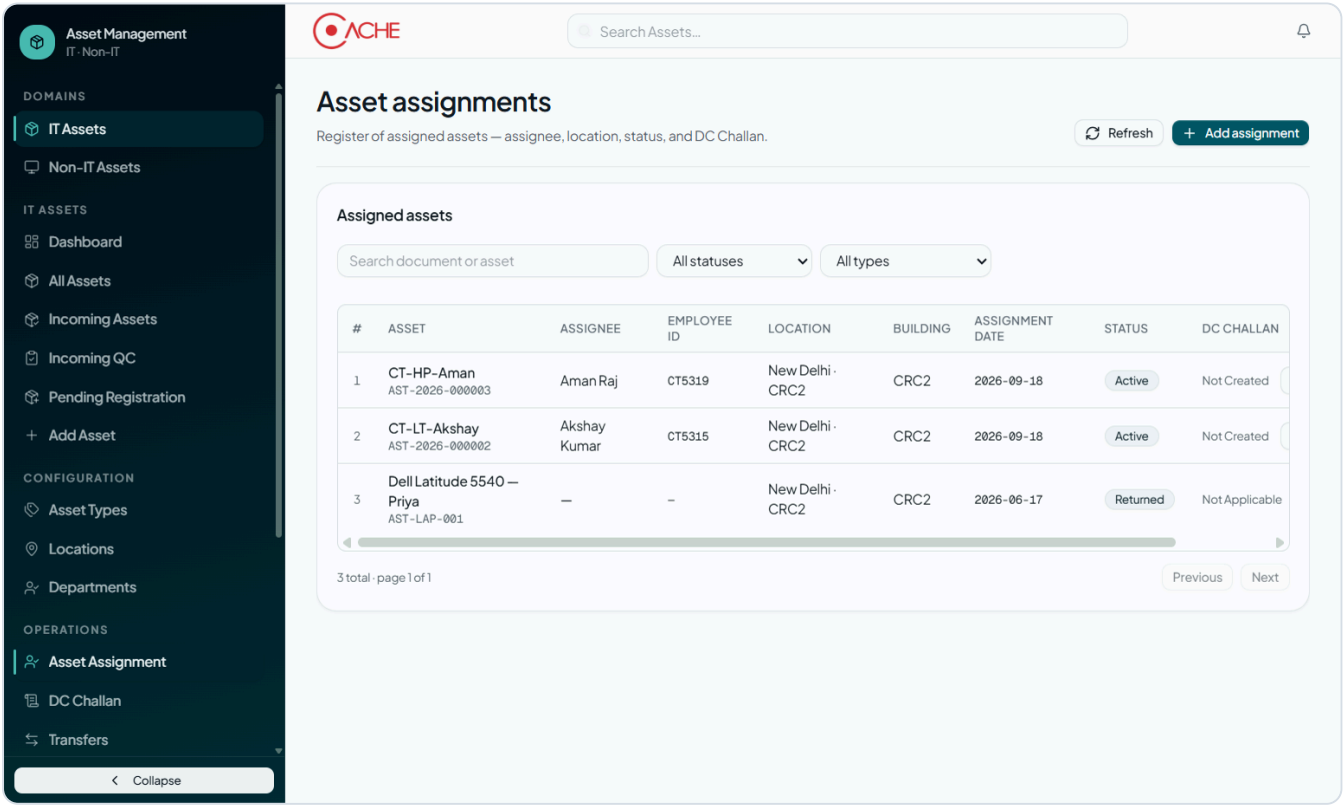

Figure B-10 - Asset Assignment pane.

B.11 DC Challan

Delivery challan workflow to SCM.

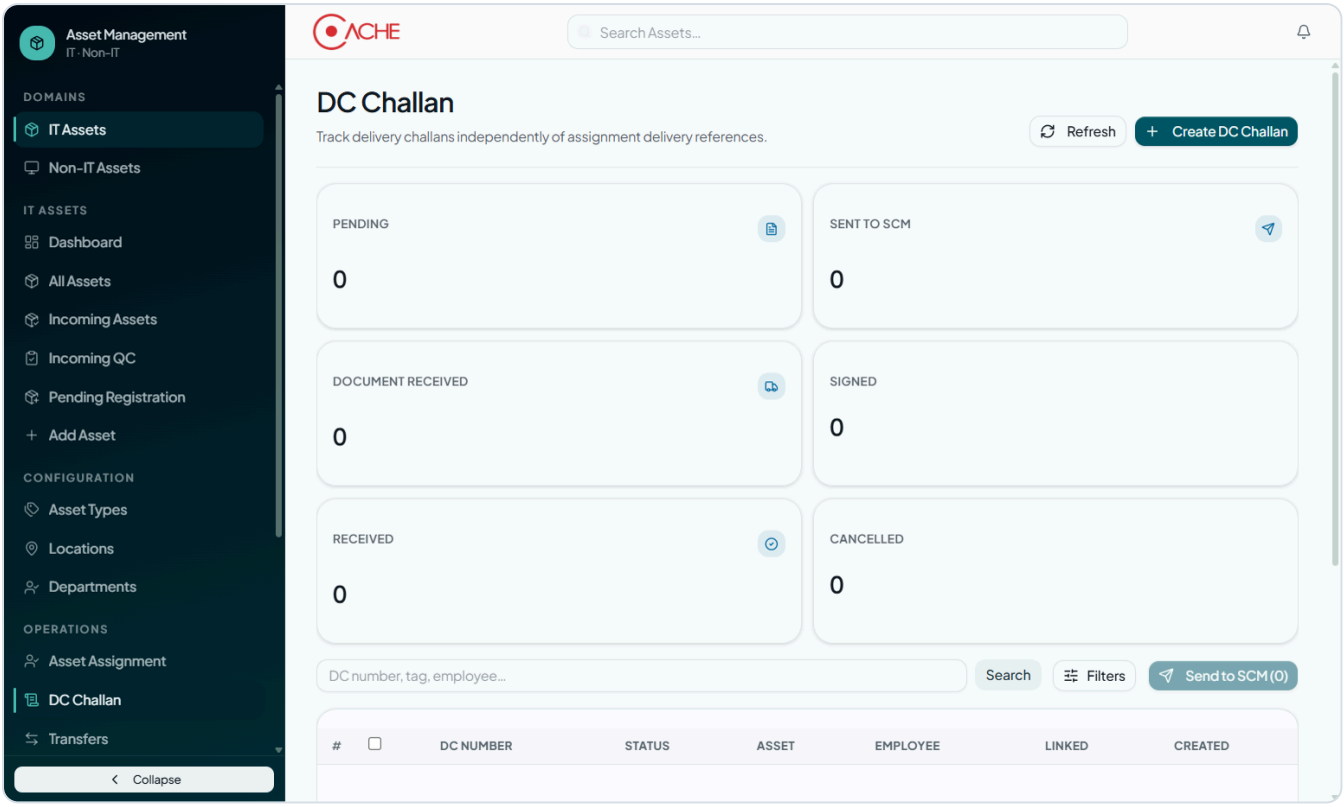

Figure B-11 - DC Challan pane.

B.12 Transfers

Inter-location transfer documents.

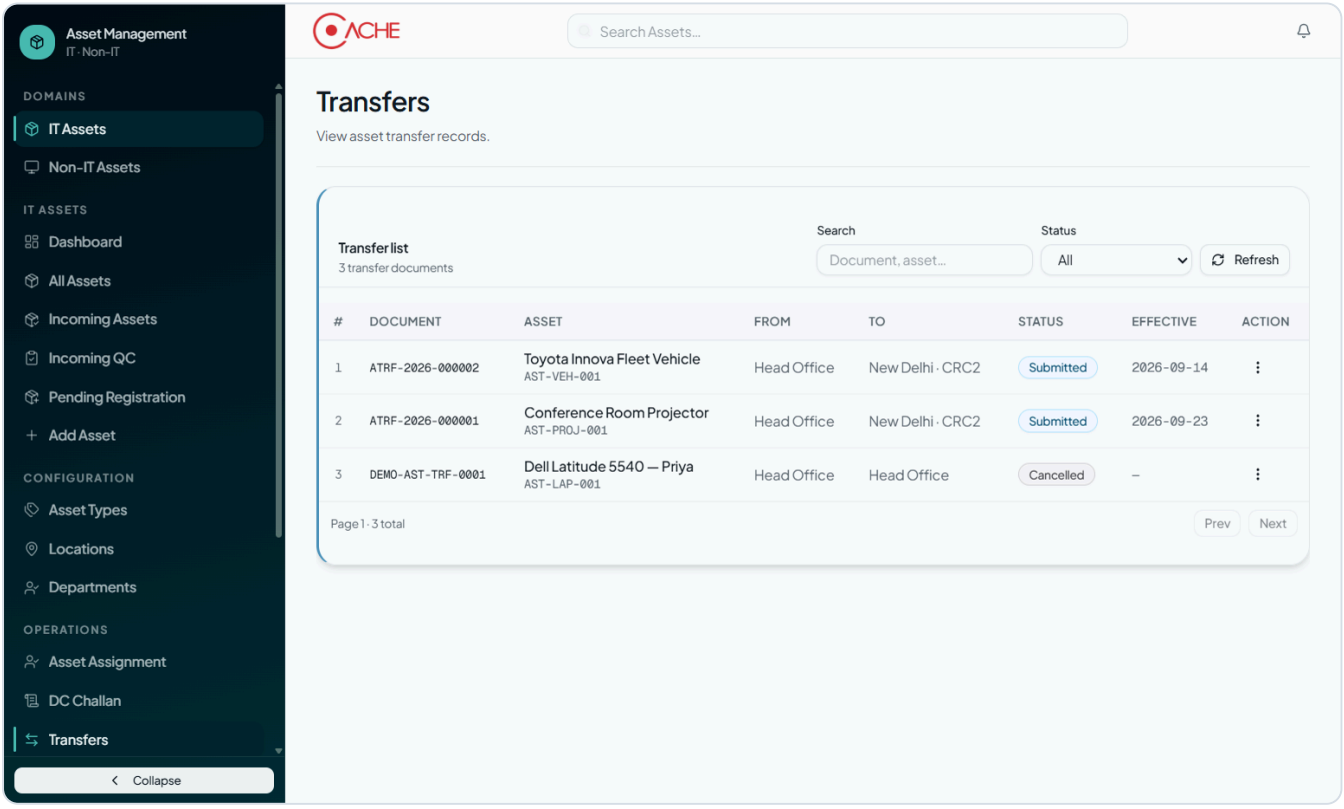

Figure B-12 - Transfers pane.

B.13 Maintenance

Work orders and return tracking.

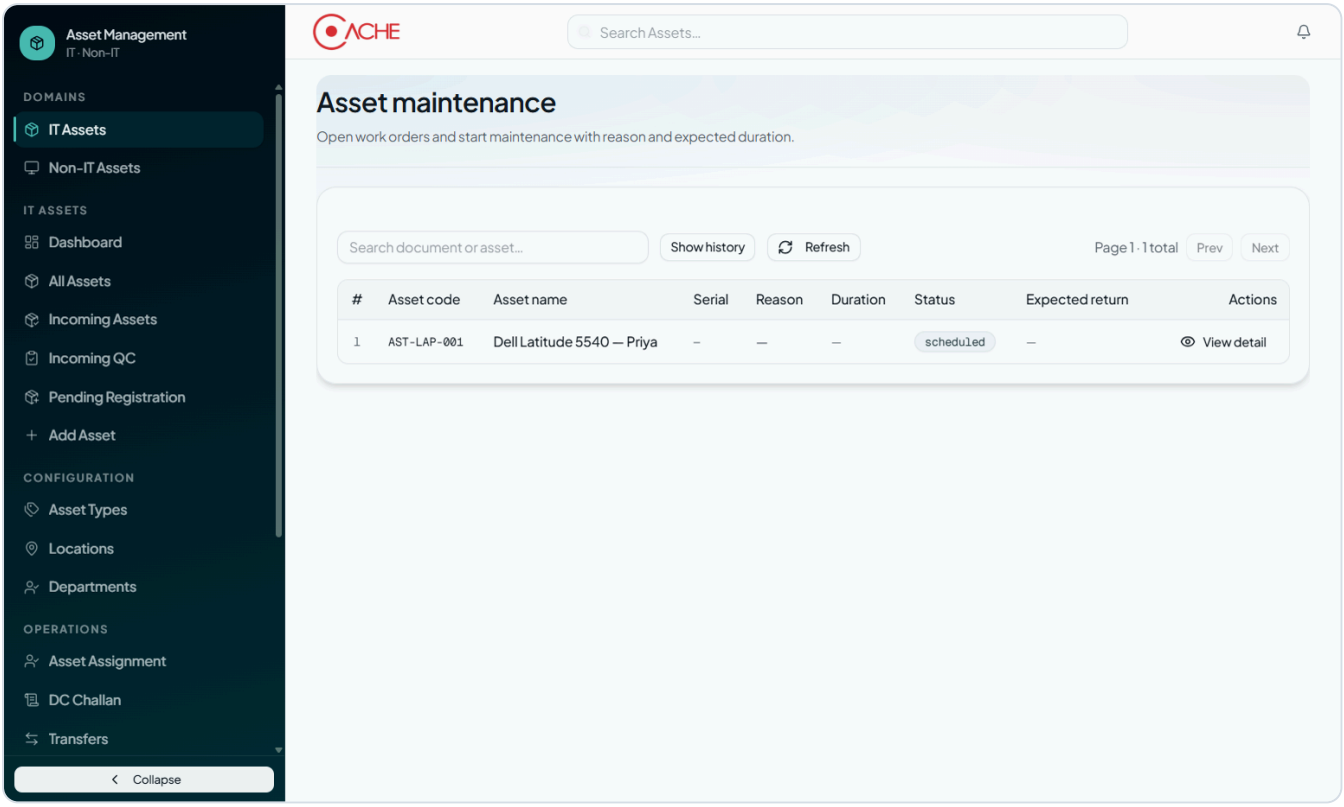

Figure B-13 - Maintenance pane.

B.14 Disposal

Lifecycle end - disposed register.

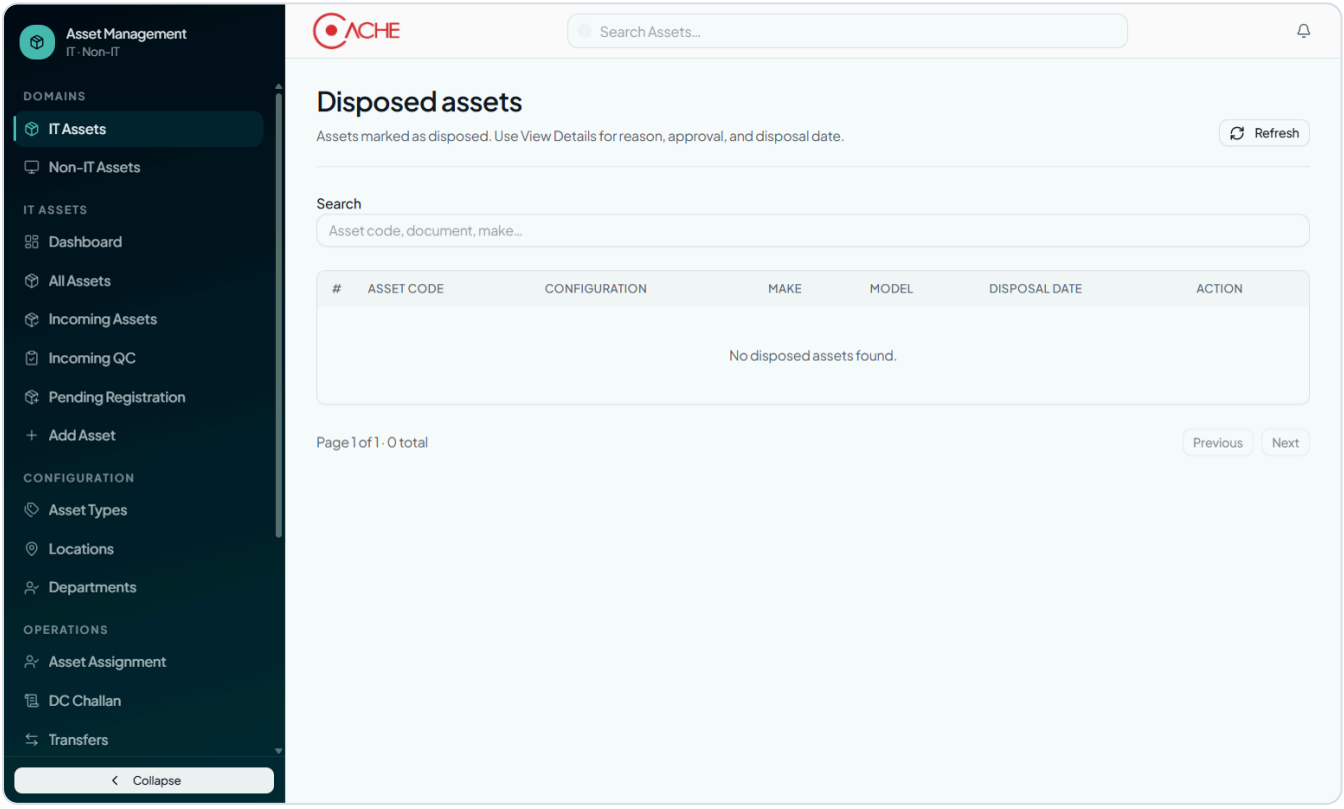

Figure B-14 - Disposal pane.

B.15 Components

Accessories installed on parent assets.

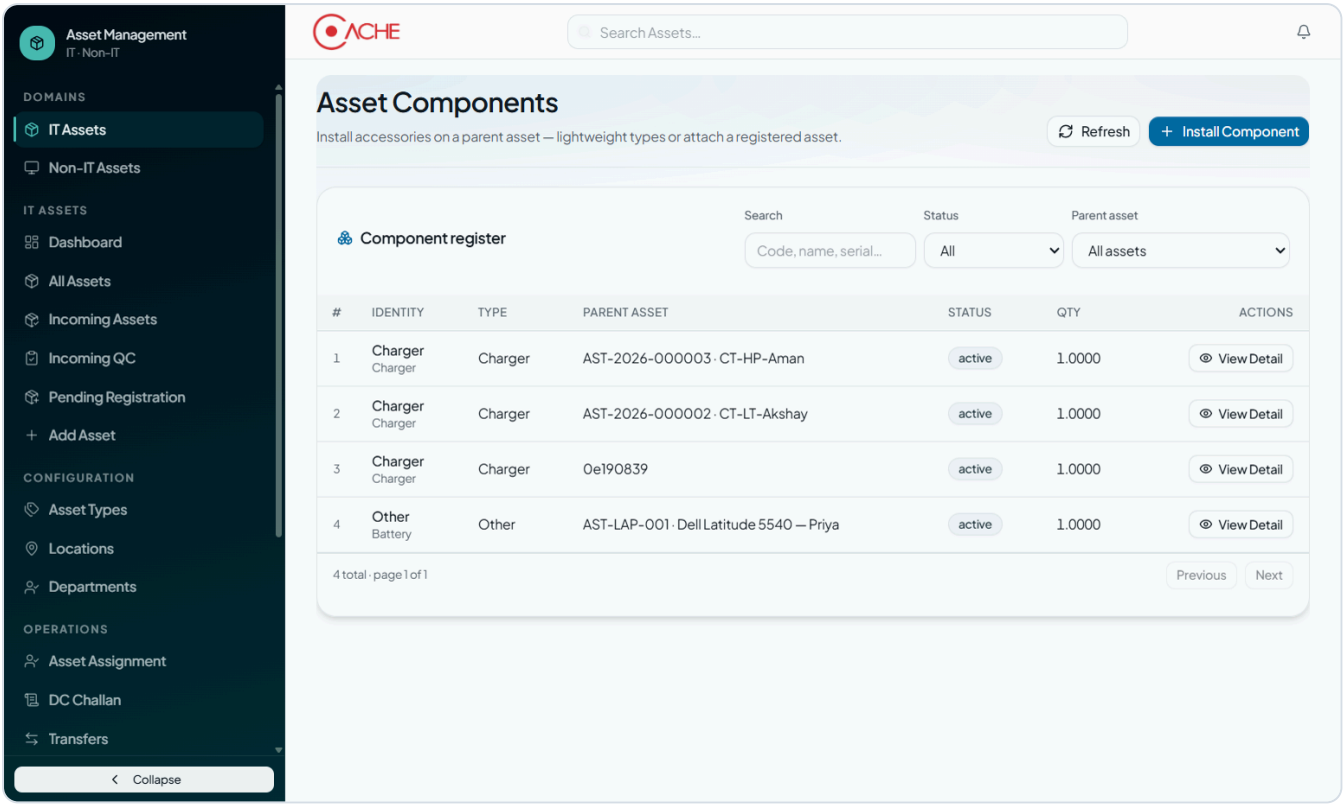

Figure B-15 - Components pane.

B.16 Documents

File attachments per asset.

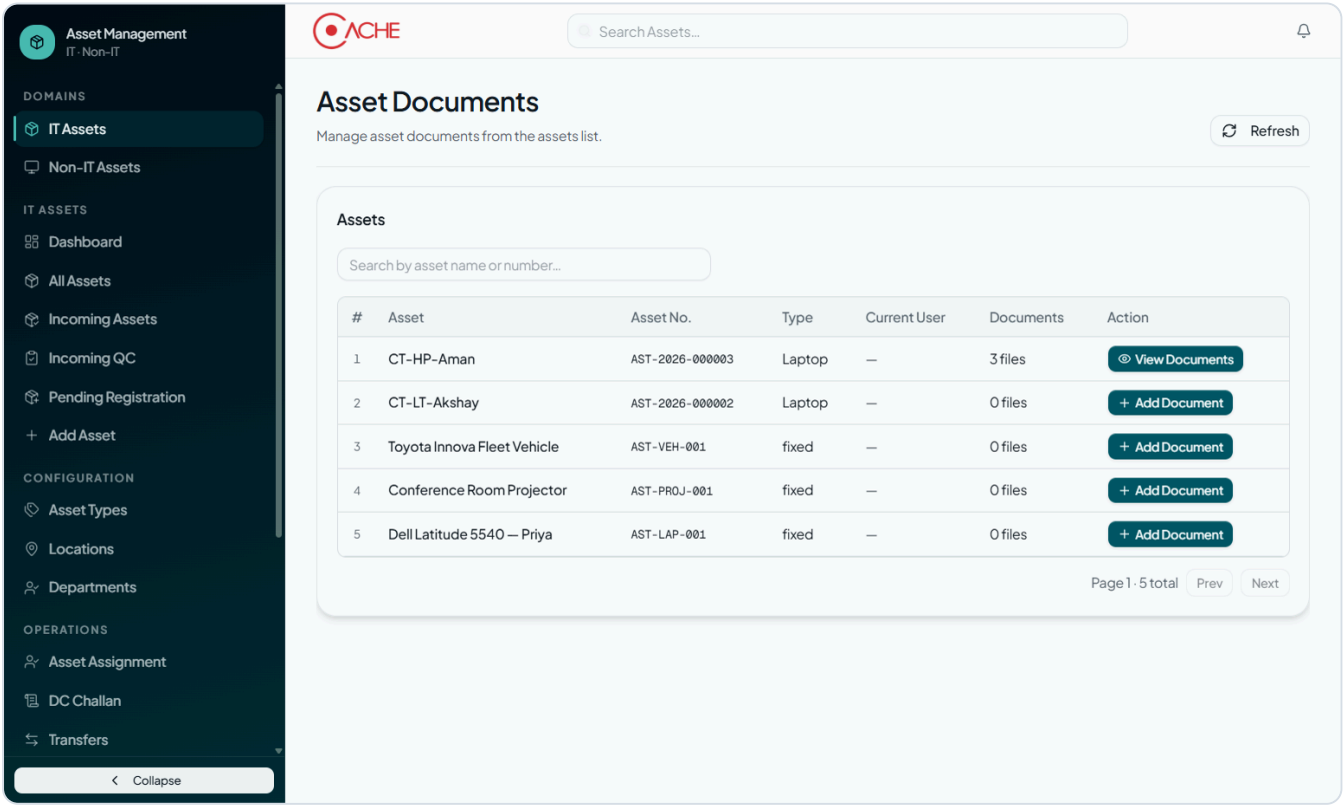

Figure B-16 - Documents pane.

B.17 Reports

Coverage and lifecycle analytics.

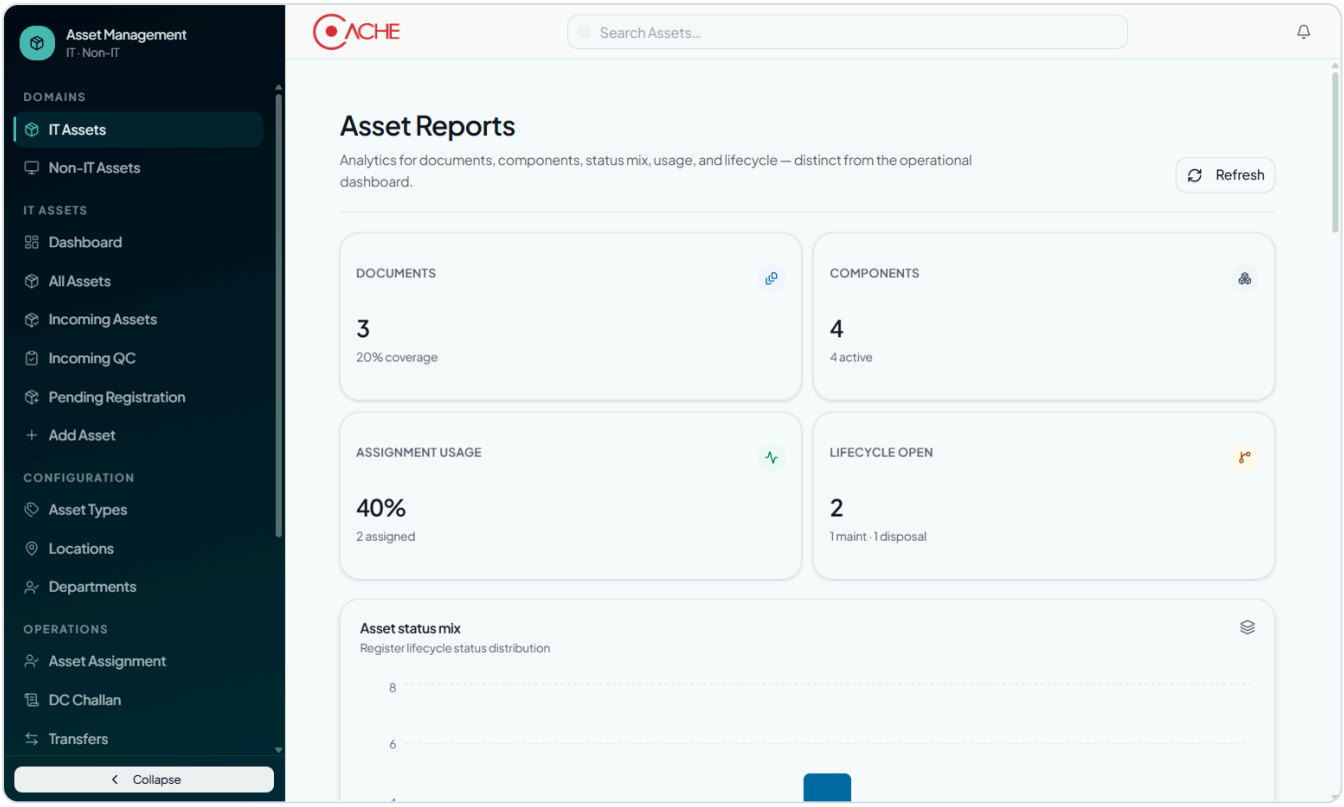

Figure B-17 - Reports pane.

B.18 Users

IT domain admin / member memberships.

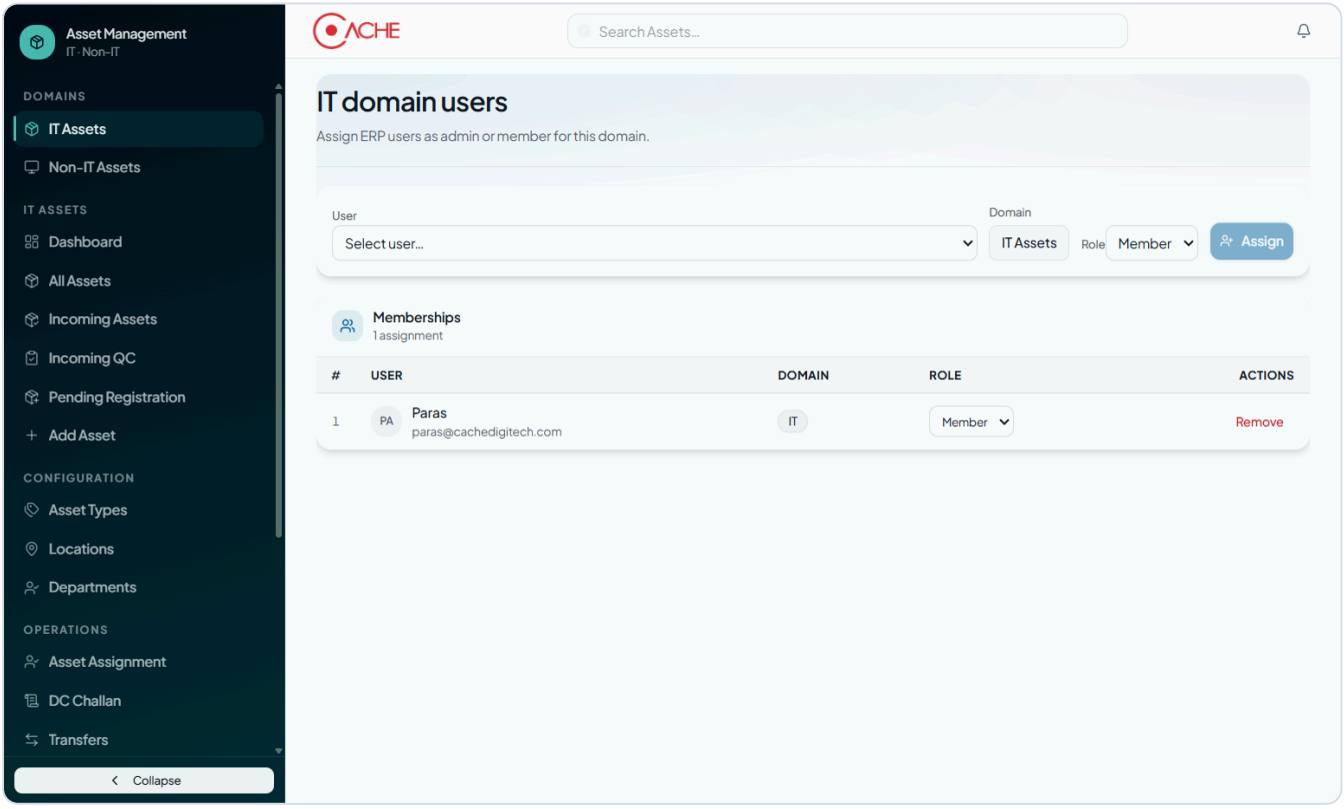

Figure B-18 - Users pane.

B.19 Non-IT Assets

Alternate domain dashboard and inventory.

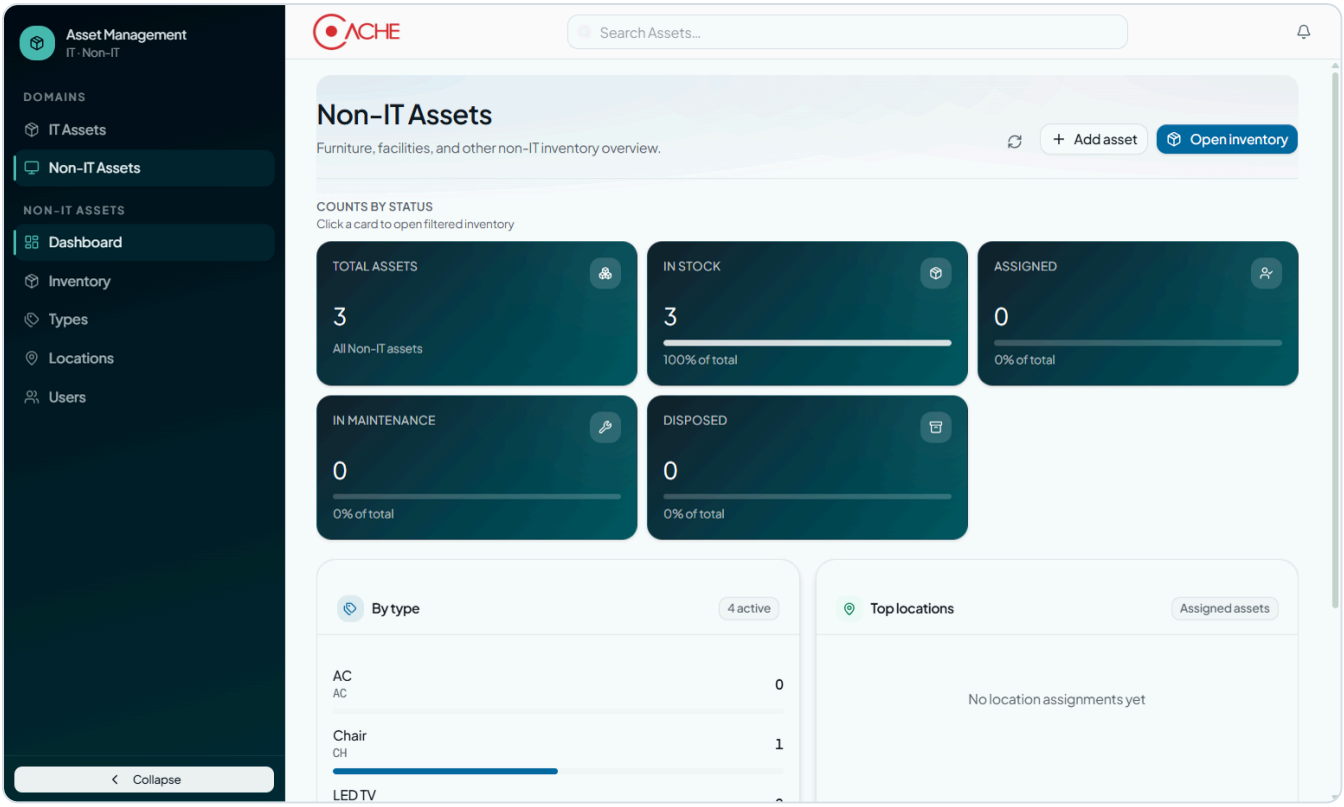

Figure B-19 - Non-IT Assets pane.

Roles and responsibilities

Asset admin / Superadmin

- Own types, locations, and departments
- Grant IT / Non-IT domain memberships
- Approve disposals and sensitive transfers
- Configure reports and retention policies

IT asset operator

- Run Incoming, QC, and Registration
- Issue assignments and DC challans
- Log maintenance and components
- Attach warranties and invoices

Facilities / Non-IT

- Maintain Non-IT inventory
- Update types and locations
- Coordinate furniture and facility moves
- Support disposal of non-IT stock

Typical checkpoints

Your tenant policies may vary. These are the usual Asset Management checkpoints.

STAGE	OWNER	ACTION IN UI
Configuration	Asset admin	Create Asset Types, Locations, Departments
Intake	Operator	Incoming Assets - Incoming QC - Pending Registration
Register	Operator	Add Asset or complete pending registration
Custody	Operator	Asset Assignment - Create DC Challan
Operations	Operator	Transfers, Maintenance, Components, Documents
End of life	Admin + ops	Disposal with reason and approval

Document control - iConnect Plus Asset Management User Manual v1.0 - HTML generated by `_build_assets_manual.py` .

Regenerate after UI changes: run the build script, refresh screenshots under `assets/screenshots/` , then print to PDF (see README).
