## Who this manual is for and access

This manual is for **HRMS admins** and **assigned HR members** who hire, manage attendance and leave, run payroll, and process exits.

> Sign in with **Microsoft Entra SSO**. Passwords are not stored in iConnect Plus for Entra users. If HRMS is missing from your module hub, ask a Superadmin to grant access on Superadmin Panel.

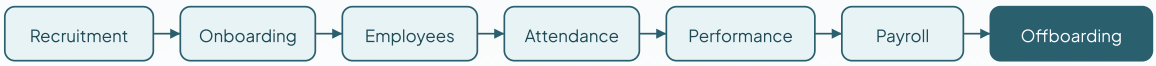

1. Open iConnect Plus and complete Entra sign-in.
2. Open the HRMS module from the ERP module hub.
3. Use the left sidebar. Expand Org Setup and IT & Admin for nested panes.
4. Start configuration from Org Setup before bulk hiring.

> Business rule: employees can enter via Recruitment - Onboarding or direct Add Employee. Attendance and payroll depend on an Active employment record.

## End-to-end HR lifecycle overview

Part A walks hire-to-exit screens. Use Org Setup and Leave Setup early so masters exist before you create employees.
