Who this manual is for and access

This manual is for **Marketing & Social module admins**, **content creators**, and **approval heads** who plan campaigns, produce deliverables, and publish across channels.

> Sign in with **Microsoft Entra SSO**. Passwords are not stored in iConnect Plus for Entra users. If Marketing & Social is missing from your module hub, ask a module admin to assign you on Users.

1. Open iConnect Plus and complete Entra sign-in.
2. Open Marketing & Social from the ERP module hub.
3. Use the left sidebar groups: Workspace, Content, Insights, Channels, and Admin.
4. Set Brand kit before large Content Studio runs so drafts stay on-brand.

> Business rule: only Marketing head and module admins can create campaigns. Creators submit deliverables; approval heads approve on Requests before calendar publish.
